

determines that the Company has cash available (or may draw on unfunded loan commitments to the extent permitted by the Financing Documents) after payment of the Special Distribution, Priority Distributions, required operating expenses and liabilities of the Company, Reimbursable Member Expenses and Reimbursable Project Management Expenses, the Company shall distribute such available cash, or draw on any unfunded loan commitments to the extent permitted by the Financing Documents, and distribute all or any portion of that excess cash and drawdown funds to the Members Pro Rata, subject to the provisions of the Financing Documents.

2.3. **Appendix A (Glossary of Defined Terms)**. Appendix A to the LLC Agreement is hereby amended by (a) amending the definition of “Electric Interconnection Agreements” to be and read as follows:

“**Electric Interconnection Agreements**” means (a) the Amended and Restated Interconnection and Operating Agreement, dated January 4, 2001, between the Company and Entergy Gulf States and (b) the Interconnection and Operating Agreement, made effective July 1, 2001, between Cleco Power and the Company.

and (b) adding, in proper alphabetical order, new definitions of “Cleco Power” and “Entergy Gulf States”, which shall be and read as follows:

“**Cleco Power**” means Cleco Power LLC.

“**Entergy Gulf States**” means Entergy Gulf States, Inc., a Texas corporation.

3. **Effectiveness**. The LLC Agreement, as amended hereby, shall continue to be, and shall remain, in full force and effect.

4. **Headings**. The headings of the Sections of this Amendment are included for convenience only and shall not be deemed to constitute a part of this Amendment.

5. **Counterparts**. This Amendment may be executed in any number of separate counterparts, each of which when so executed and delivered shall be deemed an original, but all such counterparts shall together constitute one and the same agreement. All signatures need not be on the same counterpart.

6. **Governing Law**. This Amendment shall be governed by, and construed in accordance with, the laws of the State of Delaware, without reference to the conflict of laws rules thereof that would direct the application of the laws of another jurisdiction.

[Remainder of page intentionally left blank.]

IN WITNESS WHEREOF, this First Amendment to Second Amended and Restated Limited Liability Company Agreement has been executed by the Members effective as of the date first written above.

ANNUAL REPORT ON FORM 10-K

ITEM 8, ITEM 15(a)(1) AND (2) AND ITEM 15(c) AND 15(d)

FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

FINANCIAL STATEMENT SCHEDULES

CERTAIN EXHIBITS

YEAR ENDED DECEMBER 31, 2002

LINCOLN ELECTRIC HOLDINGS, INC. AND SUBSIDIARIES

REPORT OF INDEPENDENT AUDITORS

Shareholders and Board of Directors
Lincoln Electric Holdings, Inc.

We have audited the accompanying consolidated balance sheets of Lincoln Electric Holdings, Inc. and subsidiaries as of December 31, 2002 and 2001, and the related consolidated statements of income, shareholders' equity and cash flows for each of the three years in the period ended December 31, 2002. Our audits also included the financial statement schedule listed in the Index at Item 15 (a)(2). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Lincoln Electric Holdings, Inc. and subsidiaries at December 31, 2002 and 2001, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2002, in conformity with accounting principles generally accepted in the United States. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects, the information set forth therein.

As discussed in Note A to the consolidated financial statements, effective January 1, 2002, the Company adopted Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets".

LINCOLN ELECTRIC HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(In thousands of dollars except share and per share data)
December 31, 2002

NOTE A — SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation: The consolidated financial statements include the accounts of Lincoln Electric Holdings, Inc., its wholly-owned and majority-owned subsidiaries and all non-majority owned entities for which it has a controlling interest (the “Company”) after elimination of all significant intercompany accounts, transactions and profits. Minority ownership interest in consolidated subsidiaries, which is not material, is recorded in Other long-term liabilities.

Cash Equivalents: The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Inventories: Inventories are valued at the lower of cost or market. For domestic inventories, cost is determined principally by the last-in, first-out (LIFO) method, and for non-U.S. inventories, cost is determined by the first-in, first-out (FIFO) method. At December 31, 2002 and 2001, approximately 53% and 57%, respectively, of total inventories were valued using the LIFO method. The excess of current cost over LIFO cost amounted to \$39,924 at December 31, 2002 and \$39,703 at December 31, 2001.

Equity Investments: Investments in businesses in which the Company does not have a controlling interest and holds between a 20% and 50% ownership interest are accounted for using the equity method of accounting. Under the equity method, the investment is carried at cost plus the Company’s proportionate share of the net income or loss of the business since the date of acquisition.

Property, Plant and Equipment: Property, plant and equipment are stated at cost and include improvements which significantly extend the useful lives of existing plant and equipment. Depreciation and amortization are computed by both accelerated and straight-line methods over useful lives ranging from 3 to 20 years for machinery, tools and equipment, and up to 50 years for buildings. Net gains or losses related to asset dispositions are recognized in earnings in the period in which dispositions occur.

Goodwill and Intangibles: Prior to January 1, 2002, the Company amortized goodwill on a straight line basis over periods not exceeding 40 years. Goodwill had previously been tested for impairment under the provisions of Statement of Financial Accounting Standards (SFAS) No. 121, “*Accounting for the Impairment of Long-lived Assets and Long-lived Assets to be Disposed of*”. The Company previously evaluated goodwill for impairment by comparing the unamortized balance of goodwill to projected undiscounted cash flows, which did not indicate an impairment. Effective January 1, 2002, the Company adopted SFAS No. 142, “ *Goodwill and Other Intangible Assets*”. SFAS No. 142 requires cessation of goodwill amortization and a fair value approach to testing the impairment of goodwill and other intangibles. The Company has performed the required impairment tests of goodwill and indefinite-lived intangible assets as of January 1, 2002. As a result of these impairment tests, including third-party valuations based on acquisition prices of comparable businesses, a non-cash goodwill impairment charge of \$37,607 or \$0.88 per diluted share, net of tax benefits of \$700, has been recorded as a cumulative effect of a change in accounting principle. This non-cash charge was primarily due to weak market conditions in the European region and the Company’s expectations of lower financial performance at these reporting units. The Company performed its annual impairment test on October 1, 2002 and determined there was no additional impairment of the remaining goodwill.

Net income, as reported	\$0.68	\$1.96	\$1.83
Add: Goodwill amortization	—	0.04	0.04
Adjusted net income	0.68	2.00	1.87
Add: Cumulative effect of a change in accounting principle, net of tax	0.88	—	—
Adjusted income before the cumulative effect of a change in accounting principle	\$1.56	\$2.00	\$1.87

The changes in the carrying amount of net goodwill by segment for the year ended December 31, 2002 are as follows:

	United States	Europe	Other Countries	Consolidated Total
Balance as of January 1, 2002	\$ 22,688	\$ 17,027	\$ 701	\$ 40,416
Foreign exchange effect on prior balances		(102)	7	(95)
Goodwill acquired during the period	—	1,982	99	2,081
Impairment loss from adoption of SFAS No. 142	(22,688)	(14,812)	(807)	(38,307)
Balance as of December 31, 2002	\$ —	\$ 4,095	\$ —	\$ 4,095

LINCOLN ELECTRIC HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — Continued

NOTE A — SIGNIFICANT ACCOUNTING POLICIES (Continued)

Gross intangible assets as of December 31, 2002 and 2001 were \$21,992 and \$12,907, respectively, which included accumulated amortization of \$9,238 and \$7,060, respectively. Aggregate amortization expense was \$1,028, \$1,066 and \$960 for 2002, 2001 and 2000, respectively.

Estimated annual intangible amortization expense in each of the next five years ending December 31 will be approximately \$1,000.

Long-lived Assets: During the first quarter of 2002, the Company adopted SFAS No. 144, “ *Accounting for the Impairment or Disposal of Long-Lived Assets*”. The Company previously evaluated long-lived assets for impairment under SFAS No. 121. SFAS No. 144 retains the requirements of SFAS No. 121 whereby the carrying value of long-lived assets is reviewed if facts and circumstances indicate a potential impairment of carrying value may have occurred utilizing relevant cash flow and profitability information. Impairment losses are recorded when the undiscounted cash flows estimated to be generated by those assets are less than the assets’ carrying amounts. The adoption of this Statement did not have a material impact on the financial statements of the Company.

Product Warranties: The Company accrues for product warranty claims based on historical experience and the expected material and labor costs to provide warranty service. The changes in the carrying amount of Product Warranty reserves for the year ended December 31, 2002 is as follows:

Balance at beginning of period	Charged to costs and expenses	Deductions	Balance at end of period
\$6,254	\$3,121	\$(3,363)	\$6,012

Revenue Recognition: The Company recognizes revenue when product is shipped and title is transferred to the customer.

Distribution Costs: Distribution costs, including warehousing and freight related to product shipments, is included in Cost of goods sold.

Stock-Based Compensation: Currently, the Company applies the intrinsic value method permitted under SFAS No. 123, “ *Accounting for Stock-Based Compensation*,” as defined in Accounting Principles Board (“APB”) Opinion No. 25, “ *Accounting for Stock Issued to Employees*” and related interpretations, in accounting for the Company’s stock option plans. Accordingly, no compensation cost has been recognized in the current or past years.

SFAS No. 123 requires pro forma disclosure of the effect on net income and earnings per share when applying the fair value method of valuing stock-based compensation. The following table sets forth the pro forma disclosure of net income and earnings per share using the Black-Scholes option pricing model. For purposes of this pro forma disclosure, the estimated fair value of the options is amortized ratably over the vesting periods.

	2002		2001		2000	
	Pro Forma	Reported	Pro Forma	Reported	Pro Forma	Reported
Net income	\$26,254	\$29,275	\$81,167	\$83,589	\$76,413	\$78,092
Basic earnings per share	0.62	0.69	1.92	1.97	1.79	1.83
Diluted earnings per share	0.61	0.68	1.90	1.96	1.79	1.83

LINCOLN ELECTRIC HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — Continued

NOTE A — SIGNIFICANT ACCOUNTING POLICIES (Continued)

Effective January 1, 2003, the Company will adopt the fair value method of recording stock options contained in SFAS No. 123, which is considered the preferable accounting method for stock-based employee compensation. All future employee stock option grants beginning January 1, 2003 will be expensed over the stock option vesting period based on the fair value at the date the options are granted. The Company will elect to expense stock options using the prospective method prescribed in SFAS No. 148, “ *Accounting for Stock-Based Compensation — Transition and Disclosure*”. The prospective method requires expense to be recognized for new grants or modifications issued beginning in the year of adoption. No expense is recognized in any year for options issued prior to adoption. The Company expects the impact from the adoption of this Statement to be approximately \$0.01 per share for 2003. The Company estimates the impact per share would increase annually over the next several years and level off at approximately \$0.06 per share by 2006.

Translation of Foreign Currencies: Asset and liability accounts are translated into U.S. dollars using exchange rates in effect at the date of the consolidated balance sheet; revenue and expense accounts are translated at monthly exchange rates. Translation adjustments are reflected as a component of Shareholders’ Equity. For subsidiaries operating in highly inflationary economies, both historical and current exchange rates are used in translating balance sheet accounts, and translation adjustments are included in net income.

Transaction gains and losses are included in Selling, general & administrative expenses and were not material.

Financial Instruments: The Company, on a limited basis, uses forward exchange contracts to hedge exposure to exchange rate fluctuations on certain intercompany loans, purchase and sales transactions and other intercompany commitments. Contracts are written on a short-term basis and are not held for trading or speculative purposes.

The Company recognizes derivative instruments as either assets or liabilities in the balance sheets at fair value. The accounting for changes in the fair value of derivative instruments depends on whether it has been designated and qualifies as part of a hedging relationship and further, on the type of hedging relationship.

For derivative instruments that qualify as a fair value hedge (i.e., hedging the exposure to changes in the fair value of an asset or a liability), the gain or loss on the derivative instrument, as well as the offsetting loss or gain on the hedged item attributable to the hedged risk are recognized in earnings. For derivative instruments that qualify as a cash flow hedge (i.e., hedging the exposure to variability in expected future cash flows), the effective portion of the gain or loss on the derivative instrument is reported as a component of Other comprehensive income and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. Any remaining gain or loss on the derivative instrument is recognized in earnings. The Company does not hedge its net investments in foreign subsidiaries. For derivative instruments not designated as hedges, the gain or loss from changes in their fair values is recognized in earnings.

Research and Development: Research and development costs are expensed as incurred, and totaled \$19,150 in 2002, \$17,946 in 2001 and \$16,604 in 2000.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States, requires management to make estimates and assumptions in certain circumstances that affect the amounts reported in the accompanying consolidated financial statements and notes. Actual results could differ from these estimates.

LINCOLN ELECTRIC HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — Continued

NOTE A — SIGNIFICANT ACCOUNTING POLICIES (Continued)

Earnings per Share: The following table sets forth the computation of basic and diluted earnings per share (dollars and shares in thousands, except per share amounts).

	2002	2001	2000
Numerator:			
Income before the cumulative effect of a change in accounting principle	\$ 66,882	\$83,589	\$78,092
Cumulative effect of a change in accounting principle, net of tax	(37,607)	—	—
Net income	\$ 29,275	\$83,589	\$78,092
Denominator:			
Denominator for basic earnings per share - Weighted-average shares outstanding	42,259	42,375	42,670
Effect of dilutive securities — Employee stock options	540	235	20
Denominator for diluted earnings per share - Adjusted weighted-average shares outstanding	42,799	42,610	42,690
Basic earnings per share			
Income before the cumulative effect of a change in accounting principle	\$ 1.58	\$ 1.97	\$ 1.83
Cumulative effect of a change in accounting principle, net of tax	(0.89)	—	—
Basic earnings per share	\$ 0.69	\$ 1.97	\$ 1.83
Diluted earnings per share			
Income before the cumulative effect of a change in accounting principle	\$ 1.56	\$ 1.96	\$ 1.83
Cumulative effect of a change in accounting principle, net of tax	(0.88)	—	—
Diluted earnings per share	\$ 0.68	\$ 1.96	\$ 1.83

Reclassification: Certain reclassifications have been made to prior-year financial statements to conform to current year classifications.

New Accounting Pronouncements: Effective January 1, 2002, the Company adopted SFAS No. 144, “ *Accounting for the Impairment or Disposal of Long-Lived Assets*”. SFAS No. 144 supercedes SFAS No. 121, and APB Opinion No. 30, “ *Reporting the Results of Operations — Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events*”. SFAS No. 144 retains the requirements of SFAS No. 121 whereby an impairment loss is recognized if the carrying value of the asset is not recoverable from its undiscounted cash flows or fair values are less than carrying values. SFAS No. 144 broadens the scope of APB Opinion No. 30 provisions for the presentation of discontinued operations to include a component of an entity. The Statement requires a component of an entity sold or considered held for sale be presented as a discontinued operation. In addition, expected future operating losses from discontinued operations must be reflected in the periods incurred, rather than at the measurement date as previously required by APB Opinion No. 30. The adoption of this Statement did not have a material impact on the financial statements of the Company.

LINCOLN ELECTRIC HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — Continued

NOTE A — SIGNIFICANT ACCOUNTING POLICIES (Continued)

In April 2002, the FASB issued SFAS No. 145, “*Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No. 13, and Technical Corrections*”. SFAS No. 145 is effective for fiscal years beginning after May 15, 2002. SFAS No. 145 requires that debt extinguishment must meet the criteria under APB Opinion No. 30 to be classified as an extraordinary item. This statement also amends SFAS No. 13 to require sale-leaseback accounting for certain lease modifications that have economic effects similar to sale-leaseback transactions. The Company has not yet determined the impact, if any, this Statement will have on the financial statements of the Company.

In June 2002, the FASB issued SFAS No. 146, “*Accounting for Exit or Disposal Activities*”. SFAS No. 146 is effective for disposal activities initiated after December 31, 2002. SFAS No. 146 requires liabilities for one-time termination benefits incurred over future service periods be measured at fair value as of the termination date and recognized over the future service period. This Statement also requires liabilities associated with disposal activities be recorded when incurred instead of when probable as currently required by SFAS No. 5 “*Accounting for Contingencies*”. These liabilities should be adjusted for subsequent changes resulting from revisions to either the timing or amount of estimated cash flows, discounted at the original credit-adjusted risk-free rate. Interest on the liability would be accreted and charged to expense as an operating item. The Company has not yet determined the impact, if any, this Statement will have on the financial statements of the Company.

In November 2002, the FASB issued Interpretation No. 45, “*Guarantor’s Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others*”. Interpretation No. 45 requires certain disclosures to be made by a guarantor in its financial statements about its obligations under certain guarantees, including product warranties. The disclosure provisions of this Statement are effective for the Company as of the fourth quarter of 2002. The Company has made the required disclosures in these financial statements. This Statement also requires a guarantor to recognize, at inception, for all guarantees issued or modified after December 31, 2002, a liability for the fair value of the obligations it has undertaken in issuing a guarantee. The adoption of the fair value provisions of this Statement are not expected to have a material impact on the financial statements of the Company.

In December 2002, the FASB issued SFAS No. 148, “*Accounting for Stock-Based Compensation — Transition and Disclosure*”. SFAS No. 148 does not alter the provision of SFAS No. 123, nor does it require stock-based compensation to be measured under the fair-value method. Rather, SFAS No. 148 does provide three alternative transition methods to companies that elect to expense stock-based compensation using the fair-value approach under SFAS No. 123. As mentioned previously, the Company will adopt the fair-value method of recording stock options contained in SFAS No. 123 effective January 1, 2003. The Company will elect to expense stock options using the prospective method prescribed in SFAS No. 148. The prospective method requires expense to be recognized for new grants or modifications issued beginning in the year of adoption. No expense is recognized in any year for options issued prior to adoption. The Company expects the impact from the adoption of this Statement to be approximately \$0.01 per share for 2003. The Company estimates the impact per share would increase annually over the next several years and level off at approximately \$0.06 per share by 2006.

In December 2002, the Emerging Issues Task Force (“EITF”) issued EITF Issue 00-21, “*Accounting for Revenue Arrangements with Multiple Deliverables*”. EITF 00-21 provides guidance on determining whether a revenue arrangement contains multiple deliverable items and if so, requires revenue be allocated amongst the different items based on fair value. EITF 00-21 also requires revenue on any item in a revenue arrangement with multiple deliverables not delivered completely must be deferred until delivery of the item is completed. The effective date of this Issue for the Company will be July 1, 2003. The Company has not yet determined the impact, if any, this Statement will have on the financial statements of the Company.

LINCOLN ELECTRIC HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — Continued

NOTE A — SIGNIFICANT ACCOUNTING POLICIES (Continued)

In January 2003, the FASB issued Interpretation No. 46, “ *Consolidation of Variable Interest Entities*”. Interpretation No. 46 provides guidance for identifying a controlling interest in a Variable Interest Entity (“VIE”) established by means other than voting interests. Interpretation No. 46 also requires consolidation of a VIE by an enterprise that holds such a controlling interest. The effective date for this Interpretation will be July 1, 2003. The Company has not yet determined the impact, if any, this Interpretation will have on the financial statements of the Company.

Other: Included in Selling, general & administrative expenses are the costs related to the Company’s discretionary employee bonus, net of hospitalization costs, of \$32,218 in 2002, \$31,947 in 2001 and \$54,509 in 2000.

NOTE B — SHAREHOLDERS’ EQUITY

In 1999, the Board of Directors authorized an additional share repurchase program of up to 5,000,000 shares of the Company’s outstanding Common Shares to satisfy obligations under its stock option plans. This share repurchase program is in addition to the 5,000,000 shares authorized for repurchase by the Board of Directors in September 1998. The Company purchased 501,330 shares at an average cost of \$23.12 per share in 2002, bringing the total shares purchased through December 31, 2002, to 7,740,789 at an average cost of \$20.30 per share.

NOTE C — ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

The components of accumulated other comprehensive income (loss) are as follows:

	Minimum Pension Liability Adjustment, net of tax	Currency Translation Adjustment	Unrealized Gain (Loss) on Derivatives Designated and Qualified as Cash Flow Hedges, net of tax	Total Accumulated Other Comprehensive Loss
Balance January 1, 2000	\$ (792)	\$(42,732)	\$ —	\$ (43,524)
Other comprehensive (loss)	(429)	(16,035)	—	(16,464)
Balance December 31, 2000	(1,221)	(58,767)	—	(59,988)
Other comprehensive (loss) income	(514)	(6,450)	226	(6,738)
Balance December 31, 2001	(1,735)	(65,217)	226	(66,726)
Other comprehensive (loss) income	(79,697)	14,319	(246)	(65,624)
Balance December 31, 2002	\$(81,432)	\$(50,898)	\$ (20)	\$(132,350)

NOTE D — STOCK PLANS

The 1998 Stock Option Plan (“Stock Option Plan”) was adopted by the shareholders to replace The Lincoln Electric Company 1988 Incentive Equity Plan (“Incentive Equity Plan”) which expired in May 1998. The Stock Option Plan provides for the grant of options for 5,000,000 shares of Company stock to key employees over a ten-year period.

LINCOLN ELECTRIC HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — Continued

NOTE D — STOCK PLANS (Continued)

The following table summarizes the option activity for the three years ended December 31, 2002, under all Plans:

	2002		2001		2000	
	Options	Weighted-Average Exercise Price	Options	Weighted-Average Exercise Price	Options	Weighted-Average Exercise Price
Balance, beginning of year	2,736,251	\$18.12	2,218,793	\$16.76	1,567,334	\$18.13
Options granted	669,900	\$22.97	694,390	\$21.65	787,375	\$13.60
Options exercised	(222,246)	\$15.21	(171,082)	\$14.91	(29,876)	\$14.08
Options canceled	(4,434)	\$19.57	(5,850)	\$17.56	(106,040)	\$14.36
Balance, end of year	3,179,471	\$19.34	2,736,251	\$18.12	2,218,793	\$16.76
Exercisable at end of year	1,875,464	\$18.29	1,430,280	\$17.75	1,065,512	\$17.82

During 1996, options for 335,180 shares were granted to employees in settlement of a lawsuit over performance awards relating to prior years. Exercise prices are \$15.00 and \$17.00 per share. These options are exercisable over five- and ten-year periods and are fully vested, non-qualified and non-transferable. At December 31, 2002 and 2001, there were 94,756 and 124,554, respectively, of these options outstanding.

All other options granted under both the Stock Option Plan and the Incentive Equity Plan are outstanding for a term of ten years from the date of grant. The majority of the options granted under both plans vest ratably over a period of three years from the grant date. The exercise prices of all options were equal to the fair market value of the Company’s shares at the date of grant. As permitted under SFAS No. 123, the Company has continued to record stock-based compensation in accordance with the intrinsic value method established by APB Opinion No. 25. Under the intrinsic value method, compensation expense is measured as the excess, if any, of the market price at the date of grant over the exercise price of the options. Accordingly, no compensation expense was recognized upon the award of these stock options.

In estimating the fair value of options granted during 2002 for the Stock Option Plan and the Incentive Equity Plan, an expected option life of five years was used based on the Company’s historical experience. In prior years, the Company had used ten years as the expected option life. The other weighted-average assumptions were as follows:

	2002	2001	2000
Expected volatility	43.50%	43.13%	42.60%
Dividend yield	2.76%	2.45%	2.90%
Risk-free interest rate	3.60%	5.11%	5.17%
Weighted-average fair value of options granted during the year	\$ 7.63	\$ 9.52	\$ 5.59

The Stock Option Plan for Non-Employee Directors (“Directors Stock Option Plan”) was adopted in May 2000 to replace The Lincoln Non-Employee Directors Restricted Stock Plan, which was terminated. The Directors Stock Option Plan provides for the grant of stock options for the purchase of up to an aggregate of 500,000 Common Shares. Options issued under the Directors Stock Option Plan were 30,000 in 2002 and 34,000 in 2001. There were no shares issued in connection with The Lincoln Non-Employee Directors Restricted Stock Plan during 2002 or 2001 and 5,335 in 2000. Forfeitures under the service requirements of the plan were 1,644 in 2000.

LINCOLN ELECTRIC HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — Continued

NOTE D — STOCK PLANS (Continued)

At December 31, 2002, there were 2,594,535 shares of common stock available for future grant under all plans, and the weighted-average remaining contractual life of outstanding options was 7.6 years. The following table summarizes information about stock options outstanding as of December 31, 2002:

Exercise Price Range	Outstanding		Exercisable		Weighted-Average Remaining Life
	Number of Options	Weighted-Average Exercise Price	Number of Options	Weighted-Average Exercise Price	
\$13 - \$15	691,148	\$13.51	456,397	\$13.52	7.4
\$15 - \$17	164,184	\$15.00	164,184	\$15.00	3.6
\$17 - \$19	170,206	\$17.40	160,706	\$17.39	4.6
\$19 - \$21	521,542	\$19.75	511,708	\$19.77	6.5
\$21 - \$22	849,982	\$21.58	263,435	\$21.61	9.0
\$22 - \$24	758,409	\$23.03	300,034	\$22.41	8.4
\$24 - \$26	24,000	\$25.50	—	—	9.9

The 1995 Lincoln Stock Purchase Plan provides employees the ability to purchase open market shares on a commission-free basis up to a limit of ten thousand dollars annually. Under this plan, 400,000 shares have been authorized to be purchased. There were 53,035, 6,271 and 26,559 shares purchased in 2002, 2001 and 2000, respectively.

NOTE E — RATIONALIZATION CHARGES

During the first quarter of 2002, the Company recorded rationalization charges of \$10,468 (\$7,045 after-tax), or \$0.17 per diluted share. The rationalization charges were principally related to a voluntary retirement program affecting approximately 3% of the Company’s U.S. workforce and asset impairment charges. Workforce reduction charges were \$5,353, while non-cash asset impairment charges were \$5,115.

NOTE F — SHORT-TERM AND LONG-TERM DEBT

At December 31, 2002 and 2001, long-term debt consisted of the following:

	2002	2001
Senior Unsecured Notes due 2007, interest at 5.58%	\$ 40,000	\$ —
Senior Unsecured Notes due 2009, interest at 5.89%	30,000	—
Senior Unsecured Notes due 2012, interest at 6.36%	80,000	—
8.73% Senior Note due 2003	9,375	18,750
Foreign borrowings due through 2011, interest at 2.3% to 10.0% (2.6% to 12.4% in 2001)	8,409	10,725
Capital leases	5,991	3,891
Other borrowings due through 2023, interest at 2.0% to 7.9%	13,804	4,249
	187,579	37,615
Less current portion	13,433	13,434
Total	\$174,146	\$24,181

LINCOLN ELECTRIC HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — Continued

NOTE F — SHORT-TERM AND LONG-TERM DEBT (Continued)

During March 2002, the Company issued Senior Unsecured Notes (the “Notes”) totaling \$150,000 through a private placement. The Notes have maturities ranging from five to ten years with a weighted average interest rate of 6.1% and an average tenure of eight years. Interest is payable semi-annually in March and September. The proceeds will be used for general corporate purposes. The Notes contain certain affirmative and negative covenants, including restrictions on asset dispositions and financial covenants (interest coverage and funded debt-to-Earnings Before Interest, Taxes, Depreciation and Amortization (“EBITDA”) ratios). The Notes will not be and have not been registered under the Securities Act of 1933, as amended, and may not be offered or sold in the United States absent registration or an applicable exemption from registration requirements.

During March 2002, the Company entered into floating rate interest rate swap agreements with notional amounts totaling \$80 million, to convert a portion of the outstanding Notes from fixed to floating rates based on six-month London Inter-bank Offered Rate (“LIBOR”), plus a spread of between 15.5 and 37.5 basis points. The variable rates are reset every six months, at which time payment or receipt of interest is settled. These swaps were designated as fair value hedges, and as such, the gain or loss on the derivative instrument, as well as the offsetting gain or loss on the hedged item attributable to the hedged risk are recognized in earnings. Net payments or receipts under these agreements are recognized as adjustments to interest expense. The fair value of these swaps at December 31, 2002 was \$9,893 and is included in Other assets.

During April 2002, the Company replaced its prior committed revolving credit facility with a new three-year revolving Credit Agreement that provides up to \$125,000 in borrowings and expires in April 2005. This Credit Agreement may be used for general corporate purposes. The interest rate on borrowings under the Credit Agreement is based on either the LIBOR plus a spread based on the Company’s leverage ratio or the prime rate, at the Company’s election. A facility fee is payable based upon the daily aggregate amount of commitments. The facility fee is based on the Company’s leverage ratio. The Credit Agreement provides for the issuance of Letters of Credit, subject to limits based on amounts outstanding under the Credit Agreement and is subject to the same covenants as the Notes. As of December 31, 2002, there are no borrowings under the credit agreement.

During April 2002, the Company amended and restated its existing 8.73% Senior Notes due in 2003. The 8.73% Senior Notes were amended and restated so that the affirmative and negative covenants are consistent with the Notes. In addition, the amendment and restatement of the 8.73% Senior Notes added an uncommitted private shelf facility allowing for the issuance of an aggregate of \$100,000 of additional senior unsecured notes (the “Shelf Notes”). There were no Shelf Notes issued or outstanding under the private shelf facility as of December 31, 2002.

In addition to committed facilities discussed above, at December 31, 2002, the Company had short-term credit lines in the United States, with uncommitted borrowing capacity of \$20,000. Short-term borrowings of foreign subsidiaries, included in Notes payable to banks, were \$945 and \$13,163 at December 31, 2002 and 2001, at weighted-average interest rates of 9.7% and 8.1%, respectively. At December 31, 2002 and 2001, \$13,083 and \$7,704 of indebtedness was secured by property, plant and equipment.

Maturities of long-term debt, including payments under capital leases, for the five years succeeding December 31, 2002 are \$13,433 in 2003, \$3,822 in 2004, \$1,817 in 2005, \$1,825 in 2006, \$46,119 in 2007 and \$120,563 thereafter. Total interest paid was \$8,343 in 2002, \$5,447 in 2001 and \$6,957 in 2000.

LINCOLN ELECTRIC HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS — Continued

NOTE G — INCOME TAXES

The components of income before income taxes are as follows:

	2002	2001	2000
U.S	\$64,049	\$ 96,397	\$105,181
Non-U.S	23,894	19,644	16,496
Total	\$87,943	\$116,041	\$121,677

Components of income tax expense (benefit) are as follows:

	2002	2001	2000
Current:			
Federal	\$10,687	\$10,029	\$32,159
Non-U.S	4,116	5,266	9,278
State and local	1,271	614	4,198
	16,074	15,909	45,635
Deferred:			
Federal	2,733	12,700	333
Non-U.S	2,511	1,604	(2,051)
State and local	(257)	2,239	(332)
	4,987	16,543	(2,050)
Total	\$21,061	\$32,452	\$43,585

The differences between total income tax expense and the amount computed by applying the statutory Federal income tax rate to income before income taxes were as follows:

	2002	2001	2000
Statutory rate of 35% applied to pre-tax income	\$30,780	\$40,614	\$42,587
Effect of state and local income taxes, net of Federal tax benefit	569	1,854	2,513
Taxes (less than) in excess of the U.S. tax rate on non-U.S. earnings, including utilization of tax loss carryforwards and losses with no benefit	(1,736)	(5)	1,454
Extraterritorial income exclusion/foreign sales corporation	(1,347)	(5,319)	(1,437)
U.S. tax (benefit) cost of foreign source income	(6,623)	2,136	(95)
Other — net	(582)	(6,828)	(1,437)
Total	\$21,061	\$32,452	\$43,585
Effective tax rate	23.9%	28.0%	35.8%

Total income tax payments, net of refunds, were \$9,818 in 2002, \$25,404 in 2001 and \$35,699 in 2000.

List of Approved Key Personnel for N66604-26-R-0163

The following Key Personnel are approved for this task order. Any changes to the below list require approval in accordance with clause C-237-H002 "SUBSTITUTION OF KEY PERSONNEL".

[illegible]

8. UBE Utilization. Consultant shall provide to the Director a UBE utilization report on an annual basis or at mutually agreed upon timeframe upon the City's request.
9. Standard of Care; Errors and Omissions.
 - (a) Standard of Care. The standard of care for all professional services performed or furnished by Consultant under this contract will be the care and skill ordinarily used by members of the subject profession practicing on similar projects whether such projects can be found locally, regionally or nationally. Consultant makes no warranties, express or implied, under this contract or otherwise, in connection with Consultant's services. Subject to the foregoing standard of care, Consultant and its sub-consultants may use or rely upon design elements and information ordinarily or customarily furnished by others, including, but not limited to, specialty contractors, manufacturers, suppliers, and the publishers of technical standards. The Consultant warrants the accuracy of Consultant's representations made to City as to Consultant's qualifications and experience during the process in which the City selected the Consultant. The Consultant represents that it is registered, licensed, and authorized to practice engineering in North Carolina.
 - (b) Compensation for errors and omissions. If (1) the Consultant creates plans or specifications containing an error or omission that causes actual construction of a portion of the work that needs to be changed solely because of the Consultant's error or omission, and, (2) the City elects to apply this subsection III.A.9.(b), the Consultant shall pay the City all reasonable costs of correcting the error or omission, including an amount, calculated according to subsection III.A.9.(b)(ii) below, to compensate the City for time spent by City's employees because of the error or omission without regard to what other services those employees might have done for the City had the error not occurred.
 - (i) (Unforeseen Conditions) An error or omission shall not be grounds for payment under this subsection III.A.9.(b) if the error or omission occurred because of physical conditions that were: (1) not in fact known to the Consultant; (2) not in fact known to the Consultant's sub-consultants; (3) not readily apparent to the Consultant; and (4) not readily apparent to the Consultant's sub-consultants.
 - (ii) (Cost of Employees' Time) The cost of the employees' time will be calculated as follows: the time spent by any salaried employee of the City because of the error or omission shall be compensated at an hourly rate equal to the employee's gross salary (using standards to determine gross salary for federal income tax purposes) during the applicable fiscal year of the City divided by the number of hours worked by that employee for the Owner during that fiscal year.
 - (iii) (Limits on Double Payments) If this subsection III.A.9.(b) is applied to compensate the City for an error or omission, the Consultant shall not owe the City any other compensation to remove the erroneously built work and replace it with correct work. However, the payment of such compensation or the application of this subsection III.A.9.(b) shall not affect liability to the Consultant for personal injury or damage to property. (In the preceding sentence, "damage to property" excludes the damage suffered by the City for the cost of replacing the erroneously installed work for which this paragraph provides compensation, but it includes all other general, special, consequential, or other kinds of damage resulting from the error or omission.)
 - (iv) (Limit on Use of Payment against Consultant) A payment by the Consultant pursuant to this subsection III.A.9.(b) shall be considered a compromise, and the City shall not introduce the fact of the payment in any legal action or proceeding except to the extent that compromises are admissible.

- (v) (Nonpayment Hereunder Not to Prevent Other Claims) If this Section III.A.9.(b) is not applied by the City so as to compensate the City for an error or omission, this Section III.A.9.(b) shall not be used to construe this contract so as to reduce any remedy that is available to the City because of that error or omission. For example, to the extent an error or omission is not compensated for because the amount exceeds the insurance deductible, the City will not be deemed to have waived a claim therefor for all damages arising from the error or omission.

10. Conflicts of Interest.

- (a) The Consultant does hereby certify that it has not entered into and, during the lifetime of the contract, will not enter into any agreement with a third-party affording the Consultant, or any sub-consultants that they may hire, with any direct or indirect financial interest in the outcome of the project, except with regard to the project development, human and natural environmental and/or engineering services associated with this contract.
- (i) Pursuant to N.C.G.S. § 133-1, the Consultant will not knowingly specify building materials, equipment, or other items that are manufactured, sold or distributed by any firm or corporation in which the designer has a financial interest.
- (ii) Pursuant to N.C.G.S. § 133-2, the Consultant will not employ or allow manufacturers or their representatives or agents to write, plan, draw, or make specifications for such public works.
- (iii) The Consultant does hereby certify that it does not have any potential conflict of interest with any entity involved with the project. Any potential conflict of interest shall be disclosed immediately to the City.
- (b) The Consultant shall comply with all applicable conflicts of interest laws including N.C.G.S. § 133-32 and 23 C.F.R. § 1.33.

B. CITY'S RESPONSIBILITIES

1. Director Authority. The Director or his/her designee is authorized to take actions on behalf of the City with respect to performance of this Agreement and Supplemental Agreements. His/her instructions, requests, and decisions on behalf of the City, where documented in writing, and not inconsistent with this Agreement or Supplemental Agreements shall be binding. This authorization does not give the Director the authority to enter into Supplemental Agreements or amendments to the Agreement or Supplemental Agreements, other than as described in this Agreement. The Director may authorize and execute the following changes, if such are agreed to in writing by both parties: change the amount of payment for particular subtasks, if such changes do not alter the rate of compensation of Consultant or its subordinates, or increase the total compensation required for completion of the project as provided for in the Supplemental Agreement, or reduce the amount of work being performed by Consultant; refine or redistribute services where there is no change in the general amount, scope, or nature of the work to be performed on a project; and extend time for a project or portion thereof if the final completion date for the project is not extended by more than 25% of the time originally allotted for the project.
2. City Information. City shall provide existing data, plans, reports, and other information in possession of or under control of the City, which are necessary for Consultant's Performance of Services and shall assist Consultant in obtaining other necessary information from City's files.

3. Notice of Inadequate Performance. City shall give prompt written notice to the Consultant if the City observes or otherwise becomes aware of any fault or defect in Consultant's conformance to this Agreement. Failure to give such notice shall not constitute a waiver of the City's right to require compliance with this Agreement or Supplemental Agreements.

SECTION IV. PERIOD OF SERVICE

A. DURATION

This Master Agreement shall authorize Supplemental Agreements to be executed for a three (3) year period from the date of execution of this Agreement. Any Supplemental Agreement executed within three years of execution of this Master Agreement shall be binding for the time period set forth therein, and this Agreement and such Supplemental Agreement, and amendments to such Agreements, shall be binding for the time period set forth in the Supplemental Agreement. Any Supplemental Agreement executed within this three-year period may be amended for additional scope, fee or time after the three-year period has expired.

B. NOTICE TO PROCEED

Services shall commence upon execution of Supplemental Agreements describing the specific project and Services to be performed. The Director or his/her designee will issue a written Notice to Proceed following execution of such Supplemental Agreement(s). Consultant will not commence Services until such notice is received.

SECTION V. COMPENSATION

A. GENERAL PROVISIONS/HOURLY RATE SCHEDULE

The terms of payment for Services provided by Consultant shall be set forth in each Supplemental Agreement. Such Agreement may provide for compensation in accordance with an hourly rate schedule, or a set fee for Services, paid one time or in periodic payments, or a combination of these methods of compensation.

Unless otherwise provided in the Supplemental Agreement, Consultant shall obtain, and provide, without additional cost to the City, all labor, materials, equipment, transportation, facilities, services, permits, and licenses necessary to perform Services under this Agreement. In addition to hourly rates or the set fee payment set forth in the Supplemental Agreement, City shall pay Consultant for expenses and costs only when reimbursement for such items is specifically provided for in a Supplemental Agreement. The City shall not be obligated to pay any expenses and costs not specifically identified in a Supplemental Agreement.

B. INVOICES/COSTS

1. Frequency/Detail

Invoices for all compensation owed in accordance with the Supplemental Agreement, including but not limited to hourly fees, lump sum payments, periodic payments, and all specifically identified, reimbursable costs and expenses shall be submitted to the City on a monthly basis, or on such other schedule as may be provided in the Supplemental Agreement. Invoices shall provide sufficient

detail to process the invoice for payment and for a proper pre-audit and post-audit thereof in accordance with City standards. If Consultant has performed Services for which payment is not yet due, as, for example, when there is a limitation on the amount of periodic payments, or when compensation is not due until a particular task is completed, Consultant shall invoice the City only for those amounts owed under the provisions of the Supplemental Agreement, and shall show Services performed for which compensation is not yet owed separately from the amounts currently due.

2. Receipts

If a Supplemental Agreement specifically allows for basic incidental project expenses to be billed without receipts, these expenses may include but are not limited to local mileage, local and long distance telephone calls, fax expenses, photocopies, and other routine expenses normally sustained in the performance of engineering and planning work. If such expenses are specifically allowed, Consultant may include, without receipts, an amount equal to 6.5% of labor costs as an allocation for these expenses, without providing receipts for the expenses. A percentage amount for basic incidental project expenses shall not be allowed if compensation is through a set fee, whether paid at one time or in periodic payments. A Supplemental Agreement may also specifically allow for payment of unusual, non-routine direct expenses. In order to be eligible for reimbursement, such expenses must be identified in the Supplemental Agreement. Such expenses may include but not be limited to, mileage for travel to sites outside of a 75-mile radius of Durham (but not including mileage to and from Consultant's place of business to Durham), rental cars, permit fees, lodging, and meals. Where such expenses are eligible for reimbursement, the Consultant shall collect and maintain receipts for said expenses and furnish such receipts to the City with the periodic invoices submitted for Services. Reimbursement shall be provided per City guidelines. Travel, lodging, and meal costs shall be governed by City guidelines and restrictions regarding reimbursable costs for City employees.

3. Additional Guidelines Regarding Determination of Costs.

Where reimbursement for costs is specifically allowed in the Supplemental Agreement, but the determination of such costs is not provided for in this Agreement or such Supplemental Agreement, or in the event of a dispute regarding costs not governed by this Agreement, the provisions of State law, City regulations or guidelines shall apply, with the limitation that the more restrictive of those regulations or guidelines will govern in case of inconsistency.

4. Disputed Items

In the event that Consultant's invoices and receipts are submitted in compliance with the requirements of this Agreement, if the City disputes any items in any invoices submitted by Consultant City shall notify the Consultant within 60 days of receipt of any disputed item and request clarification and/or remedial action. If objections are not raised within 60 days of receipt of the invoice, the City's objections shall be waived, and the invoice shall be deemed due and owing. After this point, Consultant may include the disputed item(s) in its regular, periodic invoices or on a special invoice for the disputed item only.

C. PAYMENT

Within approximately 30 days of City receiving Consultant's invoice, City shall pay Consultant for undisputed amounts within the invoice, unless the invoice does not properly reflect the amounts owed in accordance with limitations contained in a Supplemental Agreement.

D. AUDIT OF RECORDS

The Consultant agrees to maintain all information pertaining to billing for Services performed under this Agreement for three years after final payment has been made.

SECTION VI. UBE REQUIREMENTS

A. EEO

POLICY STATEMENT. THE CITY OPPOSES DISCRIMINATION ON THE BASIS OF RACE AND SEX AND URGES ALL OF ITS CONTRACTORS TO PROVIDE A FAIR OPPORTUNITY FOR MINORITIES AND WOMEN TO PARTICIPATE IN THEIR WORK FORCE AND AS SUBCONTRACTORS AND VENDORS UNDER City CONTRACTS.

B. EBOP

The Consultant shall comply with all applicable provisions of Article III of Chapter 18 of the Durham City Code (Equal Business Opportunity Program), as amended from time to time. The failure of the Consultant to comply with Article III of Chapter 18 shall be a material breach of Agreement which may result in the rescission or termination of this contract and/or other appropriate remedies in accordance with the provisions of that chapter, this contract, and State law. The Participation Plan submitted in accordance with that chapter is binding on the Consultant. Section 18-59(f) of Article III of Chapter 18 provides, in part, "If the City Manager determines that the Contractor has failed to comply with the provisions of the Contract, the City Manager shall notify the Contractor in writing of the deficiencies. The Contractor shall have 14 days, or such time as specified in the Contract, to cure the deficiencies or establish that there are no deficiencies." It is stipulated and agreed that those two quoted sentences apply only to the Consultant's alleged violations of its obligations under Article III of Chapter 18 and not to the Consultant's alleged violations of other obligations.

SECTION VII. INSURANCE COVERAGE AND INDEMNIFICATION

A. GENERAL INSURANCE REQUIREMENTS

The Contractor agrees to maintain on a primary basis, at its sole expense, and at all times during the life of this contract the following applicable coverages and limits. The requirements contained herein, as well as the City's review or acceptance of insurance maintained by the Contractor, is not intended to, and shall not in any manner, limit or qualify the liabilities or obligations assumed by the Contractor under this contract.

Commercial General Liability – Combined single limit of no less than \$1,000,000 each occurrence and \$2,000,000 aggregate. Coverage shall not contain any endorsement excluding or limiting Product/Completed Operations, Contractual Liability, Cross Liability, or Personal and Advertising Injury Liability.

Automobile Liability – Limits of no less than \$1,000,000 Combined Single Limit. Coverage shall include liability for Owned, Non-Owned, and Hired automobiles. In the event the Contractor does not own automobiles, the Contractor agrees to maintain coverage for Hired and Non-Owned Auto Liability, which may be satisfied by way of endorsement to the Commercial General Liability policy or by separate Auto Liability policy. Automobile coverage is necessary only if vehicles are used in the provision of services under this contract or are brought on a City site.

Umbrella or Excess Liability – The Contractor may satisfy the minimum liability limits required above under an Umbrella or Excess Liability policy. There is no minimum Per Occurrence limit of liability under the Umbrella or Excess Liability. However, the Annual Aggregate limits shall not be less than the highest “Each Occurrence” limit for required policies. The Contractor agrees to endorse the City as an “Additional Insured” on the Umbrella or Excess Liability unless the certificate of insurance states the Umbrella or Excess Liability provides coverage on a “Follow-Form” basis.

Worker’s Compensation & Employers Liability – The Contractor agrees to maintain Worker’s Compensation Insurance in accordance with Chapter 97 of the North Carolina General Statutes and with Employer Liability limits of no less than \$1,000,000 for each accident, each employee, and policy limit. This policy must include a waiver of subrogation.

Professional Liability– The Contractor agrees to maintain Professional Liability Insurance with limits no less than \$1,000,000.

Additional Insured – The Contractor agrees to endorse the City as an Additional Insured on the Commercial General Liability. The Additional Insured shall read “City of Durham as its interest may appear”.

Certificate of Insurance – The Contractor agrees to provide the City a certificate of insurance evidencing that all coverage, limits, and endorsements required herein are maintained and in full force and effect, and certificates of insurance shall provide a minimum thirty (30) day endeavor to notify, when available, by the Contractor’s insurer. If the Contractor receives a non-renewal or cancellation notice from an insurance carrier affording coverage required herein or receives notice that coverage no longer complies with the insurance requirements herein, the Contractor agrees to notify the City within five (5) Business Days with a copy of the non-renewal or the cancellation notice or with written specifics as to which coverage is no longer in compliance. The Certificate Holder address should appear as follows:

City of Durham
Attn: Transportation
101 City Hall Plaza
Durham, NC 27701

All primary insurance carriers must be authorized to do business in North Carolina. As used in this contract, “Business Day” is defined as any day other than Saturdays, Sundays, and any legal holiday recognized by the City pursuant to City Code Section 42-16, as amended.

DANA CORPORATION AND CONSOLIDATED SUBSIDIARIES

SCHEDULE II(a) — VALUATION AND QUALIFYING ACCOUNTS AND RESERVES

DANA CORPORATION AND CONSOLIDATED SUBSIDIARIES

SUPPLEMENTARY INFORMATION TO FINANCIAL STATEMENTS

COMMITMENTS AND CONTINGENCIES

We are a party to various legal proceedings (judicial and administrative) arising in the normal course of business, including proceedings which involve environmental and product liability claims. You can find additional information in “Note 17. Commitments and Contingencies” on page 37 of our 2000 Annual Report.

With respect to environmental claims, we are involved in investigative and/or remedial efforts at a number of locations, including “on-site” activities at currently or formerly owned facilities and “off-site” activities at “Superfund” sites where we have been named as a potentially responsible party. You can find more information in “Environmental Compliance and Remediation” under “Note 1. Summary of Significant Accounting Policies” on page 27 and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 40-46 of our 2000 Annual Report.

With respect to product liability claims, we are named in proceedings involving alleged defects in our products. Such proceedings currently include a large number of claims (most of which are for relatively small damage amounts) based on alleged asbestos-related personal injuries. At December 31, 2000, approximately 70,000 such claims were outstanding, of which approximately 33,000 were settled pending payment. We have agreements with our insurance carriers providing for the payment of a significant majority of the indemnity costs and the legal and administrative expenses for these claims. You can find additional information under “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 40-46 of our 2000 Annual Report.

EXHIBIT INDEX

No.	Description	Method of Filing
3-A	Restated Articles of Incorporation	Filed by reference to Exhibit 3-A to our Form 10-Q for the quarter ended June 30, 1998
3-B	By-Laws, effective October 16, 2000	Filed by reference to Exhibit 3-B to our Form 10-Q for the quarter ended September 30, 2000
4-A	Specimen Single Denomination Stock Certificate	Filed by reference to Exhibit 4-B to our Registration Statement No. 333-18403 filed December 20, 1996
4-B	Rights Agreement, dated as of April 25, 1996, between Dana and ChemicalMellon Shareholder Services, L.L.C., Rights Agent	Filed by reference to Exhibit 1 to our Form 8-A filed May 1, 1996
4-C	Indenture for Senior Securities between Dana and Citibank, N.A., Trustee, dated as of December 15, 1997	Filed by reference to Exhibit 4-B of our Registration Statement No. 333-42239 filed December 15, 1997
4-D	First Supplemental Indenture between Dana, as Issuer, and Citibank, N.A., Trustee, dated as of March 11, 1998	Filed by reference to Exhibit 4-B-1 to our Report on Form 8-K dated March 12, 1998
4-E	Form of 6.5% Notes due March 15, 2008 and 7.00% Notes due March 15, 2028	Filed by reference to Exhibit 4-C-1 to our Report on Form 8-K dated March 12, 1998
4-F	Second Supplemental Indenture between Dana, as Issuer, and Citibank, N.A., Trustee, dated as of February 26, 1999	Filed by reference to Exhibit 4.B.1 to our Form 8-K dated March 2, 1999
4-G	Form of 6.25% Notes due 2004, 6.5% Notes due 2009, and 7.0% Notes due 2029	Filed by reference to Exhibit 4.C.1 to our Form 8-K dated March 2, 1999
10-A	Additional Compensation Plan	Filed by reference to Exhibit A to our Proxy Statement dated March 3, 2000
10-B	1997 Stock Option Plan	Filed by reference to Exhibit A to our Proxy Statement dated March 5, 1999
10-B(1)	First Amendment to 1997 Stock Option Plan	Filed by reference to Exhibit B to our Proxy Statement dated March 2, 2001
10-C	Excess Benefits Plan	Filed by reference to Exhibit 10-F to our Form 10-K for the year ended December 31, 1998

No.	Description	Method of Filing
10-C(1)	First Amendment to Excess Benefits Plan	Filed by reference to Exhibit 10-C(1) to our Form 10-Q for the quarter ended September 30, 2000
10-D	Director Deferred Fee Plan	Filed by reference to Exhibit B to our Proxy Statement dated February 28, 1997
10-D(1)	First Amendment to Director Deferred Fee Plan	Filed by reference to Exhibit 10-I(1) to our Form 10-Q for the quarter ended March 31, 1998
10-D(2)	Second Amendment to Director Deferred Fee Plan	Filed by reference to Exhibit 10-I(2) to our Form 10-K for the year ended December 31, 1998
10-E	Employment Agreement between Dana and J.M. Magliochetti	Filed with this Report
10-F	Change of Control Agreement between Dana and W.J. Carroll. There are substantially similar agreements with R.L. Clayton, B.N. Cole, M.A. Franklin, C.F. Heine, J.M. Laisure, R.C. Richter, and E.J. Shultz	Filed by reference to Exhibit 10-J(4) to our Form 10-K for the year ended December 31, 1997
10-G	Collateral Assignment Split-Dollar Insurance Agreement for Universal Life Policies between Dana and J.M. Magliochetti. There are substantially similar agreements with W.J. Carroll, M.A. Franklin, and E.J. Shultz.	Filed with this Report
10-H	Supplemental Benefits Plan	Filed by reference to Exhibit 10-K to our Form 10-K for the year ended December 31, 1998
10-I	1999 Restricted Stock Plan	Filed by reference to Exhibit B to our Proxy Statement dated March 5, 1999
10-J	1998 Directors' Stock Option Plan	Filed by reference to Exhibit A to our Proxy Statement dated February 27, 1998
10-K	Supplementary Bonus Plan	Filed by reference to Exhibit 10-N to our Form 10-Q for the quarter ended June 30, 1995
13	Those sections of our 2000 Annual Report that are referred to in this Form 10-K	Filed with this Report
21	Subsidiaries of Dana	Filed with this Report
23	Consent of PricewaterhouseCoopers LLP	Filed with this Report
24	Power of Attorney	Filed with this Report

Unlocks and Overrides

- Agency staff can use the ARP to make **unlock** or **override** requests.
- **Unlock Requests:**
 - Enables agencies to modify details such as: contract amount, award method, contract type, accounting lines, etc.
 - Can only be submitted for actions that are pending registration with the Comptroller.
- **Override Requests:**
 - Allows agencies to modify details for a registered contract.
 - A corresponding CTR or MAR document must be created in FMS reflecting the requested change before an override request is submitted.
- **Note:** Changes to a vendor details (e.g. name or address) submitted via the ARP may require additional approval by the Comptroller's Vendor Validation Unit.

- b. Phasing/Staging Plan as applicable
- c. Site Survey as provided by DDC to be incorporated in the Consultant's documents.
- d. Demolition and selective removals plans showing all required removals, extents, limits, and protection.
- e. Floor Plans
- f. Building sections and exterior and interior elevations as applicable, with materials shown
- g. Detailed Wall Sections and Details
Detailed wall sections shall indicate all wall assemblies, building conditions, insulation materials, ratings, assemblies, and characteristics complete in all details. Indicate fire ratings of walls, partitions, ceilings, shafts, roofs, and structural elements such as columns and slabs
- h. Reflected Ceiling Plans showing all light fixtures, air supply diffusers and return grilles, sprinkler heads, and smoke detectors
- i. Door, Window, and Finish Schedules
- j. Vertical Transportation Plans layouts, details, and sections as applicable
- k. Furniture Layouts

6. Sustainable Design Documents

- a. On LL86 projects, in addition to NYC building code requirements, the Consultant shall update the energy analysis report to reflect final design.
- b. The Consultant shall specify performance criteria such as high efficiency, low VOC, and high recycled content wherever feasible. Specifications for LEED projects shall include documentation and tracking requirements in relevant specifications as well as targeted criteria such as recycled content percentage and VOC limits. Specifications shall also include a LEED scorecard that outlines which credits are being pursued.
- c. The Consultant shall update the LEED plan and begin compiling documentation for design credit submission.
- d. All targeted LEED credits and/or reductions in energy consumption and potable water consumption should be fully validated by the contract documents and calculations.

7. Vertical Transportation Documents

For projects involving vertical transportation, the documents shall include but not be limited to:

- a. Floor Plans
Of all equipment such as controllers, main disconnect switches, motor generator sets, inter-communication equipment, ventilation, and air-conditioning equipment.
- b. Riser Diagrams
Indicating elevator installation, floors covered, all stop distances, total travel distance, buffer, and door openings.
- c. Car Details
Provide details for internal finishes, construction of car, emergency exits, lighting (including emergency lighting), handrail, exhaust fan, flooring, and all accessory equipment.
- d. Detail Drawings of hall buttons, lanterns, and car operating panel.
- e. Emergency Recall
- f. Shaft, footing, and structural calculations.
- g. Sections and Details for elevator shaft, elevator door head, sill, and jambs, etc.
- h. ADA compliance

8. Landscape Architecture Documents

Landscape Architecture Documents shall include but not be limited to:

- a. Site Plan with major grade elevations, land contours, materials, and dimensioned locations of primary site features.
- b. Builder's Pavement Plan
- c. Planting Plan
- d. Protection and Removals Plans
- e. Site Materials Plan
- f. Details of key site design elements
- g. Site demolition and removals plan
- h. Elevations of adjoining buildings and foundations
- i. Site grading shall indicate existing and new grade elevations and land contours, at appropriate intervals, adjacent to the building and around the site. Elevations shall be given in feet with decimals to the nearest 1/100th. Provide storm drainage plan.
- j. Site Lighting and Site Electrical Plan
- k. Site Irrigation Plan

- I. Civil Engineering as applicable

9. Structural Documents

The Structural Documents shall consist of the following information:

a. Calculations

- i. The calculations as outlined in the Design Development (DD) Phase shall be updated and completed to 50% Construction Documents. Calculations shall reflect any changes, revisions, clarifications, or additional information as a result of DDC Design Review Comments and recommendations, and all regulatory agency approvals.
- ii. Whenever a figure is obtained from some other page of the calculations, refer to that page number in parentheses next to the figure used in the calculation.
- iii. Provide sketches showing framing plans with dimensions and grid lines, freebody/force diagrams in support of the calculations, refer to drawing numbers where the calculated items are shown on the drawing: for example, structural sizes, connection details, etc.
- iv. The structural calculations shall include, but not be limited to:
 - 1. Gravity loads
 - 2. Lateral loads
 - 3. Foundations
 - 4. Thermal loads, where significant
 - 5. Vibration propagation
 - 6. Progressive collapse
 - 7. Supports for non-structural elements, including mechanical and electrical equipment on the roof and in equipment rooms, louvers, and other penetrations.
 - 8. Steel connections
 - 9. Blast analysis

b. Drawings

- i. Demolition or removal plans, where applicable.
- ii. Full set of structural construction drawings including, but not limited to:
 - 1. Drawings must be fully dimensioned, noted and detailed for bidding and construction.
 - 2. Basic wind speed, miles per hour, wind importance factor, building category, wind exposure, and the applicable internal pressure coefficient must be indicated.
 - 3. Foundation, Floor, and Roof Framing Plans
 - 4. Structural sections, details, and elevations
 - 5. Type and strength of all structural materials.
 - 6. Design Soil Bearing Value and pile type and capacity – soil bearing pressure and lateral earth pressure must be indicated.
 - 7. Bottom elevations of all footings, estimated pile lengths, and underpinning requirements.
 - 8. Joints
Provide a plan clearly indicating and dimensioning all construction, control, and contraction joints.
 - 9. Design Live Load

Load criteria for all floor live loads, roof live load, roof snow load, wind load, earthquake design data, and special loads must be shown on drawings. Live load reduction of the uniformly distributed floor live loads, if used in design, must be indicated.

10. Required construction procedures
 11. Special shoring or bracing requirements
 12. Seismic design criteria, such as seismic use group, special response coefficients SD_s and SD_1 , site class, basic seismic-force-resisting system, design base shear, and analytical procedure must be indicated, and any additional information required by NYC Building Code.
 13. Soil Boring Plan and soils analysis, provided by DDC and incorporated into the drawing set.
 14. Boring logs, provided by DDC and incorporated into the drawing set.
 15. Blast-resistant requirements, if applicable.
 16. Indicate the codes and standards used to develop the project
- iii. Schedules
Schedules for foundations, columns, walls, beams, slabs, and decks, as applicable.
- iv. Structural Details
All typical details must be shown on the drawings.
1. Sizes, locations, and details of major structural elements and their connections, including equipment supports and site structures, base plates and anchor bolts, camber, shear stud types, and lengths.
 2. Location and details of all construction, control, and expansion joints.
 3. Substructure waterproofing details – show extent of waterproofing and water-stop systems.
 4. Details for anchorage of building system equipment and non-structural building elements (may be shown on mechanical, electrical, or architectural drawings, as applicable).

10. HVAC and Fire Protection Documents

The HVAC/Fire Protection documents shall consist of the following information:

- a. Calculations and Energy Analysis
- i. Heating and cooling load calculations.
 - ii. Systems pressure static analysis at peak and minimum block loads for occupied and unoccupied conditions.
 - iii. Building pressurization analysis for peak and minimum block loads for occupied and unoccupied conditions.
 - iv. Acoustical calculations for peak and minimum block loads for occupied conditions.
 - v. Sound level calculations.
 - vi. Flow and head calculations for pumping systems for peak and minimum block loads for occupied conditions.
 - vii. Final selection of equipment and cut sheets of selected equipment.
 - viii. Psychrometric calculations of the selected HVAC systems at full and partial loads (partial loads at 25%, 50%, and unoccupied periods).
 - ix. Energy consumption calculations and analysis.
 - x. Fuel consumption estimates.
 - xi. Sizing of fuel storage and distribution system.
 - xii. Sizing of vibration isolators for mechanical equipment.

- xiii. Water consumption calculations and analysis of make-up water for HVAC systems.
- xiv. For any fire modeling generated results, submit a copy of the input data and all pertinent program material and assumptions required to understand the output and the analysis. A narrative of the input and results must be part of the calculations.
- xv. Fire protection water supply calculations, including water supply flow testing data.
- xvi. Fire pump calculations, where applicable.
- xvii. Water reserve calculations for sprinkler system.
- xviii. Smoke control calculations, where applicable.
- xix. Stairway pressurization calculations, where applicable.
- xx. Fire modeling.

b. Narrative

A written narrative describing the final mechanical system and equipment selection including:

- i. Indoor and outdoor design conditions for all spaces under occupied, 24-hour, and unoccupied conditions.
- ii. Ventilation rates, dehumidification, and pressurization criteria for all spaces under occupied, 24-hour, and unoccupied conditions.
- iii. Equipment capacities, weights, sizes, sound power and power requirements.
- iv. Psychrometrics of HVAC systems.
- v. Catalog cuts of all equipment to be used on the project.
- vi. Description of the air-side and water-side systems and the associated components, including operating characteristics, ranges, and capacities, and spaces served and special features.
- vii. Description of the control strategy, specific operating and sequence of operations for all spaces under occupied, 24-hour, and unoccupied conditions, and required interlocking for each system.
- viii. Analysis report related to acoustic design compliance.
- ix. Noise control methods for projects that incorporate new or replacement of exterior mechanical/electrical equipment, as required to comply with Local Law 113 of 2005 (Noise Control Code).
- x. Fuel and utility requirements.
- xi. Description of any deviation from the HVAC and fire protection systems as approved in the Design Development Phase.

c. Specifications

Completely edited version of each specification section to be used on the project.

d. Drawings

The drawings submitted shall consist of the following:

- i. Demolition drawings, as applicable. Indicate all existing systems to be demolished.
- ii. HVAC Floor Plan(s) showing all components of all systems, including room-by-room duct distribution, diffuser, and register locations. Fully describe existing systems and/or integration of existing or new system:
 - 1. Double line piping and ductwork layout criteria.
 - 2. Show interior zone terminal air units.
 - 3. Show perimeter zone terminal units.

4. Show locations of automatic control sensors (e.g. temperature, relative humidity, CO₂, etc.).
5. Refrigerant pipe routing to and from interconnected pieces of equipment shall be sized and shown on the HVAC plans. Indicate all filter dryers, solenoid valves, strainers, pressure relief valves, flexible connections, receivers, and sight glasses.
- iii. Roof Plan showing all roof-mounted equipment and access to roof.
- iv. Mechanical details:
 1. Quarter-inch scale drawings of mechanical equipment room(s) showing all mechanical equipment, ductwork, and piping, including equipment access and service requirements in plan, elevations, and sections.
 2. The Consultant shall clearly indicate the manufacturer's required access space or tube-pull space for all mechanical equipment criteria.
 3. Provide installation details of each equipment type used on the project.
 4. All valves must be shown. Indicate locations where temperature, pressure, flow, contaminant/ combustion gases, or vibration gauges are required, and if remote sensing is required.
 5. Mechanical room piping and ductwork layout must be double line. All ductwork and piping 3" diameter and larger located in mechanical equipment rooms are to be indicated to scale.
 6. Sections

If the mechanical equipment room contains multiple pieces of equipment, provide at least two sections to show the elevations of all equipment, piping, ductwork, and structural supports. Scale for sections to be 1/4" = 1'-0" or larger. Ductwork to be shown in double line drawing.
 7. Mechanical Equipment Room
 - a. Additional sections

Where mechanical equipment units, ductwork and piping are located in tight spaces, sufficient sections shall be developed to show elevations of all equipment, piping, ductwork, and structural support. All sections to be 1/4" = 1'-0" or larger.
 - b. Composite drawings

For equipment rooms, congested corridors, and all areas involving the work of more than one trade, provide composite sections showing all new and existing equipment and conditions.
 8. All dampers – both fire dampers and volume control dampers – must be shown. Ductwork ahead of the distribution terminal must be indicated in true size (double line).
- v. Single line schematic flow and riser diagram(s):
 1. Water flow quantities and balancing devices for all heating/cooling equipment. Provide complete schematic flow diagrams for all systems, both new and existing to be modified, showing all necessary equipment and valves. Systems include steam, chilled water, condenser water, hot water, fire protection, and fuel oil.
 2. Airflow quantities and balancing devices for all heating/cooling equipment, air-handling, air-conditioning, and exhaust systems. The Consultant shall indicate all automatic controls, dampers, temperature sensors, control valves, return/relief air routing, and maximum and minimum air quantities for supply, return, and relief air. Provide control system legend.
 3. Show location of all flow/energy measuring devices for water and air systems for all cooling, heating, and terminal equipment, and their interface with the BMS.

4. Refrigerant piping schematic flow diagrams.
5. Flow and riser diagrams shall be provided for new systems and existing systems being modified.
- vi. Automatic control diagram(s):
 1. Control flow diagrams showing all sensors, valves, and controllers (analog and digital inputs for controllers, front end equipment, and system architecture).
 2. Diagrams to show control signal interfaces, complete with sequence of operation of all heating, ventilating, and cooling systems during occupied, 24-hour operations, and unoccupied conditions.
 3. Control diagrams shall be provided for new BMS systems and for new and existing systems when inter-phasing with new BMS system.
- vii. Schedules:
 1. Provide schedules of equipment that include chillers, boilers, pumps, air-handling units, terminal units, cooling towers, and all equipment required for 24-hour operations.
 2. The Consultant shall submit equipment schedules with basic equipment design parameters completed so as to indicate type, capacity, and zoning of systems.
 3. Air terminal devices
 4. Provide schedules for fire protection and other special systems.
- viii. Air balance relationships between spaces
- ix. Full set of fire protection construction drawings indicating branch sprinkler piping and head locations.
- x. Fire protection details (all typical details must be shown on the drawings).
 1. Life safety stairway pressurization fans
 2. Fire pump configuration
 3. Anchorage of underground fire protection water supply lines
 4. Standpipe riser
 5. Installations of waterflow switches and tamper switches
 6. Sprinkler floor control valves, sectional valves and test assembly
 7. Non-water-based fire extinguishing systems (e.g. wet chemical)
 8. Special fire protection systems (e.g. kitchens, computer rooms, etc.)
- xi. Riser diagrams for sprinkler system
- xii. Coordinate with electrical power requirement for HVAC equipment, requirements and location of duct smoke detectors, fire and smoke dampers, fire alarm, and fan shut-down.
- xiii. Identifications

All air-handling units shall clearly identify all coil sections, filters, access locations, and the mixing plenum. The location and weight of all equipment shall be indicated. Indicate openings, penetrations, and support.
- xiv. Energy compliance drawings, COMcheck.

11. Electrical Documents

The Electrical documents shall consist of the following information:

- a. Calculations
 - i. Load calculations

- ii. Emergency power calculations, including generator calculations and starter loads, where applicable.
- iii. Illumination level and lighting power calculations
- iv. Lighting power densities
- v. Short circuit calculations
Provide short circuit calculations for all affected points in the distribution system. Indicate AIC ratings of incoming service, panelboards and overcurrent protective devices.
Indicate short circuit values on appropriate points of the single line diagram.
- vi. Provide voltage drop calculations for all affected points in the distribution system.
Indicate voltage drop values on appropriate points of the single line diagram.
- vii. Where applicable, submit a protective device coordination study indicating selective coordination between the service switch or circuit breaker and the distribution switches and/or the switchboards, and downstream of the switchboard.
- viii. Arc Flash Study

b. Specifications

- i. Completely edited version of each specification section to be used on the project.
- ii. Lighting fixture schedules may be bound into the specifications.
- iii. Lighting fixture catalogue cuts may be bound into the specifications.
- iv. Lighting control schedules and zoning schedules may be bound into the specifications or shown on the drawings.

c. Drawings

All projects shall have separate electrical plans for demolition, lighting, power, and low voltage (including fire alarm, telecommunications, and data systems). The drawings submitted shall consist of:

- i. Demolition Plans, if required
- ii. Site Plan:
Indicate service locations, manholes, hand-holes, duct banks for power, telephone, cable television, and site lighting.
- iii. Floor Plans:
 - 1. Show lighting and power distribution (both on normal and emergency power), communications raceway distribution, and locations of fire alarm devices and annunciator panels.
 - 2. Floor plans shall show detailed layout of major conduit runs to eliminate conflicts and interference with other trades.
 - 3. All home runs shall be shown and properly indexed as to number and size of conduit, wires and destination.
- iv. Riser diagrams and/or single line diagrams:
 - 1. Single line riser diagram of primary and secondary power distribution shall include: normal power, emergency power, and UPS. Single line power riser diagram shall include distribution panels and downstream panelboards, major mechanical equipment, emergency panels, and transformers.
 - 2. Single line diagram for fire alarm system
 - 3. Single line diagram of signal system including: telephone, intercom, data, security, public address, and other systems shown on the drawings.
- v. Lighting fixture details with details of construction and mounting support.
- vi. Control Wiring Diagram, where necessary
- vii. Details of underfloor distribution system

- viii. Layout of electrical equipment spaces drawn to scale
 - ix. Show all electrical equipment; include scaled detailed elevations of substation transformers, main switchboards, distribution panelboards, and disconnect switches within the electric service rooms.
 - x. Schedule for switchgear, switchboards, unit substations, motor control centers, and panelboards. Schedules shall include circuit destination, load in volt-amperes, overcurrent setting, load summary, connected, spare, and demand load.
 - xi. Grounding diagram
 - xii. Lightning protection system
 - xiii. Site lighting and site electrical outlet systems, ISO foot-candle curves
 - xiv. Drawings submitted (site plan, floor plans, single line diagram and riser diagrams) shall indicate new systems and existing systems to remain and/or to be modified.
 - xv. Complete phasing plan (if required) for additions and alterations
 - xvi. Security system site plan:
Final locations for all security devices and conduit runs
 - xvii. Security system floor plans:
Layout of all security system devices
 - xviii. Building grounding system
- d. Utility company letters (electric, telephone, CATV, etc.) and utility company responses, including service layouts
- e. A description of any deviations from the electrical systems as approved in the Design Development Phase.

12. Plumbing Documents

The Plumbing documents shall consist of the following information:

- a. Calculations
- i. Include entire building, including drainage calculations and hot water heating calculations.
 - ii. Water supply calculations, including pressure
 - iii. Sanitary waste sizing calculations
 - iv. Water consumption calculations and analysis, including make-up water for HVAC systems, domestic water consumption, and water consumption for irrigation.
- b. Narrative
- i. Description of plumbing system, including domestic cold and hot water, sanitary and storm drainage, and irrigation systems.
 - ii. A final evaluation of alternate sources for preheating of domestic water (solar or heat recovery).
 - iii. A description of any deviations from the plumbing systems as approved in the Design Development Phase.
 - iv. Letters to respective utility company load letters, DEP site connection proposal, hydrant flow test results and any approval and/or utility room approved layouts.

- c. Specifications
Completely edited version of each specification section to be used for the project.
- d. Drawings
The drawings submitted shall consist of the following:
 - i. Demolition drawings, if required
 - ii. Drawings submitted (site plan, floor plans, single line diagram and riser diagrams) shall indicate new systems and existing systems to remain and/or to be modified.
 - iii. Site Plan:
 - 1. Connections
Location of storm and sanitary sewers, connection to existing sewers, pertinent inverts, size and location of means for storm water detention or retention, water services, domestic and fire, and the location of gas service, integrated with existing systems, indicated on the site plan and coordinated with floor plans.
 - 2. Grade elevations
Provide grade elevation of catch basins, manholes, and drains.
 - 3. Gasoline and diesel systems
Fuel dispensers and fuel storage tanks, where applicable, including details and notes.
 - iv. Plumbing floor plan(s):
 - 1. Plumbing layout and fixtures, equipment and piping; large scale plans should be used where required for clarity.
 - 2. Location and size of all roof drains, standard or interior piping for storm, sanitary, cold water, hot water, circulating, gas, fire standpipe, or removed systems or elements indicated on separate plans.
 - 3. Size and capacity indicated for all oil separators, hot water storage tanks, sump pumps, sewage ejectors, and house pumps, circulating pumps, storm water detention tanks, suction tank, and storm water tanks.
 - v. Systems schematics and flow diagrams
 - vi. Riser diagrams for waste and vent lines
 - vii. Riser diagrams for domestic cold and hot water lines
 - viii. Riser diagrams for all other systems (gas, fuel, etc.)
 - ix. Schedule: Plumbing fixture schedule

13. Furniture and Equipment

For projects involving Furniture and Equipment as part of the scope of work, the documents shall include but not be limited to the following. Unless explicitly stated otherwise in the Task Order or Project Objectives, all furniture tasks other than generic furniture layouts are a supplemental service.

- a. The Consultant shall provide complete furniture plans which shall be dimensioned, labeled, and keyed. Include all systems furniture, loose furniture, and built-in furniture and equipment. Illustrate points of entry for electrical outlets, telephone jacks, and computer locations at all furniture systems. Indicate all power and data outlets.
- b. Drawings for loose furniture and systems furniture shall indicate clearance or installation dimensions and room numbers and shall contain a furniture legend and keys to identify all items shown.

c. Vendor Requirements

System furniture plans must meet vendor requirements as to format, key, and installation guidelines.

d. Systems Furniture

Installation plans as required by the vendor consist of the complete set of component, panel, and electrical drawings.

e. Furniture Specification Book

The Consultant shall provide a complete furniture specifications book, with keys to cross reference individual items with the plans, prepared in three sections; Requirement Contract, Purchase Items, and Bid Items.

f. Color and Sample Board

The Consultant shall provide a complete set of color boards of the furniture design, showing furniture finishes and fabric selections complete with labeling and room locations. Boards shall be presented in conjunction with the building materials board.

g. Cost Estimate

The Consultant shall provide an updated final furniture and equipment budget, including required contingencies.

h. Loose Furniture

The Consultant shall provide installation plans for loose furniture and equipment and space system furniture. Space system furniture plans shall meet vendor requirements, which generally include fully dimensioned and labeled panel layouts, component layouts, and electrical layouts, including wall and floor entries and telephones and computer locations.

14. Hazardous Materials Bid Documents

Unless otherwise determined by DDC, all Hazmat removal design work required will be performed through DDC BEGS; documents will be provided to the Consultant. The Consultant shall be responsible to review and coordinate the Hazmat survey abatement scope with the project work scope and identify related or affected project scope items. The Consultant shall incorporate the documents within the construction documents and coordinate with other required work. All work incidental to Hazmat removals shall be documented in the contract documents. For projects involving the removal, handling, and disposal of hazardous materials, when DDC's BEGS team is not handling Hazmat, the Consultant shall prepare documents that include:

a. Environmental Specifications

Provide plans, drawings, and written design specifications

b. Standard Operating Procedures

The Consultant shall provide within the specification the procedures and protocols in compliance with NYC DEP and NYS Department of Labor standards, as necessary for the scope of the environmental work.

- c. Identification of Products
The Consultant shall identify any and all products necessary for completion of the hazardous materials abatement.
- d. Hazardous Materials Cost Estimate
The Consultant will be required to submit detailed cost estimates, construction phasing plans, CPM charts and regulatory filings.

15. Bid Packaging

- a. Format
The Cost Estimate format (see Cost Estimate form at www.nyc.gov/buildnyc) shall meet all DDC requirements. The Cost Estimate for all Contracts shall be in the same CSI format as the Design Development Cost estimate with the exception that design contingency is reduced to 5% at 50% CD and 0% at 100% CD. The estimate shall be done with a DDC approved computerized estimating program compatible with EXCEL.
- b. Addendum
The Consultant shall prepare the Addendum to the General Conditions. The requirements for Single Contract Specifications are the same as those for Multiple Contracts except that the list for separate contracts is not included. Items to be inserted by the Consultant include but are not limited to the following:
 - i. Project Description
 - ii. Contracts for the Project
 - iii. Applicability of Articles, amended Articles, and additional Articles
 - iv. Schedule "A"- Shall indicate Contract duration, liquidated damages, and insurance, including coverage on Asbestos and insured parties
 - v. Schedule "B"- Listing all warranties corresponding to those in the Technical Specifications
 - vi. Schedule "C"- Complete list of Contract Drawings
 - vii. Schedule "D"- Indicating electrical motor control equipment
 - viii. Schedule "E"- Indicating separation of trades
 - ix. Schedule "F"- Shop Drawings and Materials Samples Schedule
 - x. Refer to Appendix A-3 for further information.
- c. Contractors Bid Break-down Form
DDC shall prepare the Contractor Bid Break-down Form directly from the Consultant's final cost estimate.
- d. Unit Price Allowance Schedule
Unit Price Allowance Schedule shall be included if applicable.

16. Review Comments Response

The Consultant is required to respond in writing to Design and Constructibility comments received from the technical review groups of DDC and/or the CM performing the Constructibility Review as well as from the Commissioning Agent when an agent is used. Response should be no more than two weeks from receipt of comments, and should address the spirit of the comments as well as the specific issues. Timely compliance with 50% Construction Document Design and Constructibility

review comments is expected. The Consultant shall continue to advance the work during the 50% CD review period.

E. 100% CONSTRUCTION DOCUMENTS DELIVERABLES

1. Regulatory Approvals

At this stage of the project all submissions to DOB and other regulatory agencies and utility companies should be completed. All correspondence, approvals, findings, and test results shall be submitted with the documents for review and record. The Consultant shall submit a final status report on all required submittals to the DDC Project Manager showing actual submittal dates, approvals received, and any unresolved issues, including any objections issued by the regulatory agency.

2. General

All drawing submissions, including all required disciplines, shall show a minimum of one hundred (100%) percent completion and shall meet the following requirements:

a. Commissioning Specification

HVAC, Plumbing, and Electrical system specifications shall be provided for projects to be commissioned.

b. Final NYCECC energy analysis, COMcheck, and Calculations

c. Bar Graph Construction Schedule

Indicate all phasing and Client Agency requirements.

d. Long Lead Time Items

The Consultant shall prepare a separate list of all items that require early procurement. These long lead time items, which may significantly impact project duration and coordination, shall have previously been discussed during project design. Long lead time items shall also be highlighted on the Shop Drawing Log Form.

e. Shop Drawing Log Form

The Consultant shall submit the list of required shop drawings, samples and catalogue cuts (which has been previously prepared and incorporated into the Specifications) on the Shop Drawing Log form. The Shop Drawing Log in the approved format shall be presented to the project Contractors at the Construction Kick-off (Pre-Construction) Meeting.

3. Technical Specifications

Technical Specifications shall be developed as noted in the 50% CD phase to a 100% level of completion for every involved project discipline. The specifications shall reflect any changes, revisions, clarifications, or additional information as a result of DDC Design and Constructibility review comments and recommendations, and all regulatory agency approvals.

4. Construction Documents

The Construction Documents as outlined in 50% Construction Documents Deliverables shall be completed to 100%. Documents shall reflect any changes, revisions, clarifications, or additional information and/or details as a result of DDC Design and Constructibility review comments and recommendations, and all regulatory agency approvals.

5. Sustainable Design Documents

- a.** Energy Analysis - The Consultant shall update the energy analysis report as necessary for LL86 projects to reflect final design.
- b.** Specifications - For LEED projects, the Consultant shall highlight LEED submittal requirements for applicable materials on the Shop Drawing Log form.
- c.** LEED Documentation - The Consultant shall begin design credit submission after final design is complete.

6. Commissioning

The Consultant shall respond to comments prepared by the Commissioning Agent on the 100% CD submission.

7. Hazardous Materials Bid Documents

For projects involving the removal, handling and disposal of hazardous materials, when DDC's BEGS team is not handling Hazmat. The Consultant shall be responsible to review and coordinate abatement scope with the project work scope and identify related or affected project scope items. All work incidental to Hazmat removals shall be documented in the contract documents. The Consultant shall prepare documents that include:

- a.** Environmental Specifications
Provide plans, drawings, and written design specifications to perform any remedial/abatement work and provide for temporary re-insulation, weather protection, prevention of soil erosion, spill prevention, etc., that may be indicated. These documents must be in a format suitable for bidding and included with the final bid documents prepared by the Consultant for the overall project.
- b.** Standard Operating Procedures
The Consultant shall provide within the specification the following procedures and protocols in compliance with NYC DEP and NYS Department of Labor standards, as necessary for the scope of the environmental work:
 - i. Special experience requirements for environmental abatement/remediation
 - ii. Emergency precautions and notifications
 - iii. Quality assurance standards
 - iv. Air-monitoring and/or bulk sampling requirements
 - v. Removal/remediation procedures
 - vi. Decontamination procedures
 - vii. Critical barriers and engineering controls
 - viii. Waste handling and disposal
 - ix. Reinstallation or replacement with non-hazardous materials
 - x. Identification of products

The Consultant shall identify any and all products necessary for completion of the hazardous materials abatement, with performance specifications for those products, including, but not limited to, material handling devices, replace materials, specialized tools and equipment, cleaning materials, worker protection (respiratory protection and protective clothing), waste disposal materials, decontamination facilities, barriers, and air moving equipment.

c. Hazardous Materials Cost Estimate

The Consultant will be required to submit detailed cost estimates, construction phasing plans, CPM charts and regulatory filings. These filings, variances, work plans, and notifications may include the NYC DEP and DOB, NYS DOL and DEC, and any federal EPA, OSHA, or DOT that may be required due to the nature of the hazards within the project scope.

8. Final Cost Estimate

- a.** The Cost estimate (see Cost Estimate form at <http://www.nyc.gov/html/ddc/html/business/designfrm.shtml>) shall meet all DDC requirements.
- b.** The Cost Estimate for all Contracts shall be updated as needed, and in the same CSI format as earlier estimates with the exception that design contingency is no longer included.
- c.** The cost estimate shall be reconciled with all specifications. It shall include every specification number and title from the project specifications in numerical order.

9. Addendum to General Conditions

The Consultant shall insert project specific information in the DDC “Addendum to General Conditions”. At 100% CD deliverables, a revised “Addendum to the General Conditions” conforming to 50% CD Constructibility Review Comments shall be submitted in an electronic format. Please refer to Appendix A-3 for further instruction.

10. Review Comments Response

The Consultant is required to respond in writing to Design and Constructibility comments received from the technical review groups of DDC and/or the CM performing the Constructibility Review as well as from the Commissioning Agent when an agent is used. Response should be no more than two weeks from receipt of comments, and should address the spirit of the comments as well as the specific issues. Timely compliance with 100% Construction Document Constructibility Review Comments will accelerate the start of the bid process and construction.

F. FINAL COMPLIANCE SUBMISSION / BID DOCUMENT DELIVERABLES

Summary of Deliverables

After approval of the Construction Document drawings, Technical Specifications, and the Addendum to the General Conditions, the Consultant shall deliver the following to DDC. Submit electronic copies of

drawings, specifications, and estimates in DDC approved format for permanent DDC records with the bid document submissions.

1. Construction Documents

a. Drawing Format

Full size drawings shall be on reproducible media as directed by the Project Manager. They shall conform to the approved deliverables identified in the 100% Construction Documents.

b. Conformity with Comments

Drawings shall fully conform to 100% Construction Document Review Comments by DDC.

c. Sign and Seal

Include identification, professional seals and signatures of the Consultant and any sub-consultants on all drawings so as to meet the requirements of Article 27-157 of the New York City Administrative Code.

d. Approvals

Submit original of all drawings or documents bearing stamps of approval by each regulatory agency, including but not limited to DOB, LPC, and PDC.

2. Specifications

Shall be in clear legible form, typed doubled sided, and collated per DDC format, on 8 1/2" x 11" white bond paper, unbound without punched holes, collated, boxed for bid packaging and photocopying.

3. Electronic file of final cost estimate in DDC approved format shall be submitted.

BID AND AWARD

A. BID AND AWARD, AND REGISTRATION SERVICES

During the period of advertising, receipt, and analysis of bids, the Consultant shall:

1. Interpret Plans and Specifications

Interpret plans and specifications when requested by the DDC in response to inquiries by prospective bidders.

2. Prepare and Issue Amendments and Drawings

Prepare and issue all necessary addenda, amendments, and drawings required for the clarification of plans and specifications. Such documents shall be issued through DDC.

3. Attend Pre-Bid Meetings

Attend Pre-Bid Meetings to answer questions from bidders and to assure that all parties clearly understand the intent of the Contract Documents. A Pre-Bid Meeting is required with the Consultant, the Client Agency representative and the DDC project team. Pre-Bid Meetings are held at the site to ensure that all bidders become familiar with existing conditions. Agenda items include highlights of the contract emphasizing any unusual work. If any of the questions posed by the Contractors requires a change to the Contract Documents, the Consultant is responsible for the preparation and issuance of an Addendum.

4. Assist in the Analysis and Evaluation of Bids

Assist in the analysis and evaluation of bids and within three days of the bid opening make written recommendations and reports on the disposition of bids and the award of Contracts. Assist in the review and evaluation of special experience qualifications of the subcontractors proposed by the Prime Contractors.

5. Attend Pre-Award Meetings

Attend Pre-Award Meetings to answer questions and to provide additional support and analysis in the understanding of the intent of the Contract Documents. A Pre-Award Meeting for all prime contracts is required with the Consultant, the Contractor, the Client Agency representative and members of the DDC project team.

B. BID AND AWARD DELIVERABLES

During the period of bid advertisement and analysis, the Consultant shall prepare the following, as necessary:

1. Addenda

Addenda drawing and specifications shall be produced by the Consultant as required in response to Contractor questions and requests for information arising during the Pre-Bid

Meeting or as otherwise necessary for the clarification of the Bid Documents. The Consultant shall submit all addenda, including drawings and specifications, to the DDC Project Manager and the DDC A & E Constructibility Unit for review and approval. The DDC Project Manager will inform the Consultant of all format requirements, including the specific addendum number.

2. Filing and Signature

The Consultant shall sign and seal all necessary drawings. Drawings which need to be filed with, or presented to, regulatory agencies, including, but not limited to, the NYC DOB, shall be prepared and filed by the Consultant. The Consultant shall send regulatory agency approvals to the DDC Project Manager. Changes that require approval by the Landmarks Preservation Commission will be filed by DDC. Changes that require approval by the Public Design Commission will be filed by the Consultant at the direction of the DDC Public Design Commission Liaison.

3. Bid Tabulation Analysis

The Consultant shall attend the Bid Opening and review the Bid Tabulation available at the conclusion of the Bid Opening to assist in discovering any bid anomalies.

C. FURNITURE AND EQUIPMENT

For projects involving furniture and equipment specifically directed in the Task Order or Project Objectives the Consultant is responsible for:

1. Requisition Forms and Purchases Orders

Upon completion of the base building Contract Documents, the Consultant shall meet with the DDC Project Manager to receive prototypical requisition forms and purchase orders and to establish a schedule for their completion.

2. Coordination

Upon receipt of the completed forms, the DDC Project Manager shall forward the forms to the Division of Municipal Supplies of DCAS. The Consultant shall coordinate the delivery schedule with the various vendors holding Furniture Requirement Contracts at DCAS.

3. Phasing of Furniture Acquisition

If necessary, the Consultant shall prepare separate requisition forms for each floor and construction phase of the project.

Subsequent to approval of the preferred schematic design by DDC, the Consultant shall analyze the proposed design in accordance with the Energy Analysis Plan developed during the investigation phase. The Energy Analysis must show compliance with the requirements of Local Law 86, enhanced energy design, or other standard as directed by the Project Objectives, as well as the NYC Energy Conservation Code. Each proposed energy efficiency measure shall be analyzed separately and compared to the baseline model for energy cost and greenhouse gas emissions. The analysis shall be submitted in report form. If LL86 applies the SD report shall incorporate energy conservation measures and other LEED strategies.

9. Commissioning Agent

If the project is intended to qualify for the Enhanced Commissioning credit under the LEED rating system, the Commissioning Agent's involvement in the design process must begin during this stage.

10. Energy Analysis

Subsequent to approval of the preferred schematic design by DDC, the Consultant shall perform a computerized analysis of the proposed HVAC central plant and distribution options in accordance with the approved Energy Analysis Plan developed during the investigation phase of Schematic Design. The Energy Analysis must show compliance with Local Law 86, energy cost reduction requirements, or other required standard. Each proposed energy efficiency measure shall be analyzed separately and compared to the baseline model in order to determine its payback period. The analysis shall be submitted in report form.

11. Resilient Design

The Consultant shall develop requirement for maintaining functionality in changing conditions or emergencies and identify criteria for durability, including the ability of the exterior envelope to withstand severe weather or unexpected environmental changes. The Consultant shall develop parameters for properly locating critical building equipment and explore options for redundancy and on-site renewable energy.

12. Design for healthy living

The Consultant shall identify health needs and opportunities based on an analysis of building occupants and the surrounding community, and outline strategies to promote physical as well as mental health using the design of the building and/or site. The Consultant should rely on the Active Design Guidelines and DDC's Guiding Principles on design for healthy living in developing the analysis and identifying the design strategies.

13. Public Design Commission and Landmarks Preservation Commission

The Consultant will submit all City-owned projects requiring exterior work to the Public Design Commission (PDC) as part of basic services at two phases of development: Conceptual, if required and not part of a pre-schematic phase, and Preliminary. The extent and format for the presentation or submission is outlined on the PDC website and will be confirmed by the Public Design Commission Liaison. Projects accurately described as "replacement in kind" have minimal requirements, but are required to be submitted for review nonetheless.

14. Value Engineering

If requested by the Office of Management and Budget (OMB), a Value Engineering (VE) Study may occur before final acceptance of the Schematic Design Submission. Participation by the Consultant, if not explicitly stated in the Task Order or Project Objectives, will be considered an

additional service.

15. Percent for Art Artist Selection

Under its contract with the City of New York, when applicable, the Consultant is required to retain services of an Artist for the design, fabrication, and installation of Artwork. After a project is deemed eligible for artwork, DDC asks the Consultant to participate in a brainstorm meeting considering the project's art opportunities. The Consultant may recommend general locations for the artwork, a concept (i.e. media, site, style, materials), and/or artists to be considered. On occasion, a charrette may be held with the community where the Consultant will prepare and present the art component within the context of the proposed project. The Consultant shall gather feedback about the site, art opportunities, and parameters.

a. Panel 1 - Artist Selection Meeting

The Consultant will present a brief overview of the project and art opportunities to the Artist Selection Jury. Presentation includes: project scope, site designs, art opportunities, budget, schedule, and other considerations meaningful to the client, context, and community. The Consultant shall participate in the artist selection as an advisor to the jury.

b. Artist Orientation Meeting

The Consultant shall brief finalist artist candidates about the project site, location, and community context. The Consultant shall present and distribute digital file copies of the current design materials to the artist finalists. The materials will include: a project narrative that includes project history, mission, vision, and scope; a design description that includes site map, existing site photos, proposed plans, and renderings or other visuals that will inform the artist about the project, site, and opportunities; community profile; drawings of identified art opportunity locations; project sponsor information. The Consultant should be available to respond to email correspondence from the artists moderated by the City.

c. Panel 2 - Finalist Artist Interviews Meeting

The Consultant is required to present a brief overview of the current project to the Artist Selection Panel.

d. Artist Selection

Upon selection, the Consultant shall retain the Artist. The Artist's fees are a reimbursable expense.

D. SCHEMATIC DESIGN DELIVERABLES

1. Meeting Minutes

The Consultant shall prepare minutes, following the DDC format, within three working days of all Meetings. Criteria for these minutes appear in Appendix A-3 under "Meetings". The Consultant shall transmit the minutes to the DDC Project Manager for distribution to all attendees. Minutes shall summarize:

a. List of attendees

- b. Decisions made and by whom
- c. Open issues and the schedule and persons responsible for resolution

2. Schematic Design Interim Submission I: Investigations Phase

- a. Site and or existing building analysis
- b. Zoning Analysis
Demonstration of compliance with NYC Zoning Resolution, including set-backs, height limitations, and identification of any required or recommended variances.
- c. Building Code Analysis
Demonstration of compliance with NYC Building Code including Building Classification, Construction Classification, Occupancy, Egress Compliance, Fire Separation, Energy use, etc.
- d. Summation of opportunities, constraints, adjacencies, operation, and maintenance.
- e. Environmental Program Matrix
Prepare a matrix describing preferred environmental conditions for each major type of space in the program. The conditions shall at minimum include access to daylight, orientation, views, acoustic needs, temperature and humidity control, air quality, and lighting quality. See sample matrix on <http://www.nyc.gov/html/ddc/downloads/pdf/matrix.pdf>.
- f. Sustainable Design
Describe required level of Local Law 86 compliance, or compliance with other standard if appropriate. Provide solar diagram, environmental programming matrix, and minutes of sustainable design workshop. Include the latest LEED scorecard, annotated with descriptions of the project's specific sustainable design strategies.
- g. Energy Master Plan
If directed, provide an ASHRAE Level II Energy Audit with a prioritized list of potential energy conservation measures, or incorporate into the report the audit provided independently by the assigned commissioning firm. Identify all NYC Energy Conservation Code requirements applicable to the project.
- h. Resilient Design
Describe requirements and strategies for creating a facility with access to services during emergencies or interruptions.

3. Schematic Design Interim Submission II: Options

- a. Blocking and stacking, massing, and site planning diagrams for each option.
- b. Outline plans, elevations, and sections for each option.

- c. Engineering narratives for each system proposed including usage, concepts, materials requirements, noise control, and life cycle costs. (Note: These may be applicable to multiple options.)
- d. Preliminary project cost estimates for each option.
- e. Describe the impacts of each option on Local Law 86 compliance or on enhanced energy design goals, indicating which energy conservation measures apply to each option.
- f. Describe requirements and strategies for creating a resilient facility with access to services during emergencies or service interruption.
- g. Design for healthy living
Needs analysis and identification of design strategies to promote physical and mental health.

4. Schematic Design Final Report

(The report shall include the documentation of the previously submitted Investigation and Options Interim Reports as appendices.)

- a. Statement of project objectives
- b. Existing Conditions
Review and documentation of existing conditions, including MEP systems
- c. Program Requirements
Review and documentation of program requirements.
- d. Preferred Scheme
Presentation of the recommended design, including analysis of architectural and engineering concepts and suitability to program requirements.
- e. Site Design
Provide description of site concept plan. In addition, for projects with no Pre-Schematic phase, (through the services of an arborist) identify all trees and plant specimens known to be host species of invasive pests, identify invasive plant species, and requirements for street trees.
- f. Circulation Study
A diagrammatic circulation study showing horizontal and vertical circulation is required. The circulation study will include a vertical transportation analysis and recommendations for the number of elevators, or escalators, type of elevator systems, and control systems.
- g. Design for healthy living
Needs analysis and identification of design strategies to promote physical and mental health.
- h. Resiliency Study
Needs analysis and identification of design strategies to promote access to services during

emergencies and interruptions.

i. Sustainable Design

Update and assemble the sustainable design deliverables from the interim reports into a comprehensive final report including, if appropriate, the Energy Audit or Energy Analysis as described below. Confirm status of LEED registration with USGBC if applicable, and invite DDC Sustainable Design Project Director to LEED online record.

j. Energy Analysis

Where required by NYC Energy Conservation Code, LL86 compliance, or enhanced energy design goals, provide a complete energy analysis of the preferred schematic design. The analysis shall include a description of the methodology and computer software used, a description of the building model used, and documentation of the building occupancy schedule, source of weather data, and source of energy rates used; a breakdown of energy consumption by end uses; a summary comparison of energy consumption between the proposed building and baseline building on a monthly and yearly basis; and a summary comparison of energy cost and greenhouse gas emissions on a yearly basis. Summary figures shall be broken down by energy source (gas, electricity, etc.). The analysis shall provide the energy consumption, greenhouse gas emissions, and energy cost savings for each energy efficiency measures compared to the baseline, indicating the payback period for each measure.

k. Energy Master Plan and Enhanced Energy Design Alternate

- i. System Upgrade: Identify opportunities for the system design to surpass code minimum energy performance by the amount specified in the Project Objectives or the building's existing Energy Master Plan.
- ii. Renovation (multiple system upgrades and some interior and/or exterior renovation): Provide an Energy Master Plan consisting of a building-wide ASHRAE Level II Energy Audit that identifies opportunities for energy conservation measures, including future opportunities beyond the current project scope. Provide a conceptual enhanced energy design alternate for the current scope to surpass code minimum energy performance by the amount specified in the Project Objectives.
- iii. New Construction (includes gut renovations and other Local Law 86 eligible projects): Provide a conceptual enhanced energy design alternate for the current scope to surpass Local Law 86 minimum energy performance by the amount specified in the Project Objectives. For each energy conservation measure proposed under the alternate, compare the first cost, energy and GHG emissions savings, and operating and maintenance impacts to the LL86-compliant base design.

I. Meeting Minutes

m. Structural, HVAC, Fire Protection, Electrical and Fire Alarm, and Plumbing

- i. Narrative descriptions of the following; existing site infrastructure, building structural system and condition, electrical, mechanical, and plumbing systems, fire alarm and/or fire protection systems, and security systems. Code requirements shall be outlined. Tabular listing of desired foot candle levels for all spaces.
- ii. New service requirements shall be described. Connection or service upgrade requests to utilities shall be submitted (including load letters and preferred point of entry for new utilities).

Outreach:

7. Did your FOIA professionals engage in any outreach or dialogue with the requester community or open government groups regarding your administration of the FOIA?

Yes, GSA FOIA professionals conducted significant outreach and partnered with several different segments of our FOIA requesters and open government groups to improve the FOIA administration process and to increase access to information more timely and efficient manner. This included the improvement and quality of GSA's proactive posting. Due to the nature of the services that GSA provides, we have similar and sometimes numerous requests for data sets and information regarding topics such as Federal leased and owned real estate and office space, Federal vehicle fleet services, Federal acquisition data, Federal government employee travel and purchase card data, etc. GSA FOIA professionals oftentimes reach out to these requesters that are interested this information on ways that the agency can more effectively and proactively transmit and post information for access on a permanent or cyclical basis. GSA FOIA professionals also do not hesitate to contact FOIA requesters on their requests to discuss scoping, phased approaches and partial releases, and to determine and gain an understanding of exactly what is being requested in order to assist them in gaining this information in the most effective and efficient manner.

8. If you did not conduct any outreach during the reporting period, please explain why.

Not applicable.

Discretionary Releases:

9. Does your agency have a distinct process or system in place to review records for discretionary release?

Yes, GSA has a distinct process in place to review records for discretionary release.

- If so, please briefly describe this process.

Under a centralized structure, the GSA Subject Matter Expert (SME) performs the initial review and determination about the records and the appropriate disposition. Once the SME has made a determination, he or she consults with a FOIA professional. The SME and FOIA professional must reach an agreement regarding the release before the determination and records are forwarded to the GSA Office of General Counsel (OGC). OGC reviews the documents and determination. OGC must provide approval and concurrence prior to the GSA FOIA Program Manager approving release to the requester.

In the absence of a compelling reason, GSA will disclose a record even if it otherwise is subject to exemption (41 C.F.R. 105-60.103-2).

- If your agency is decentralized, please specify whether all components of your agency have such a process or system in place?

Not applicable. GSA's FOIA operations are centralized.

10. During the reporting period, did your agency make any discretionary releases of information?

Yes, GSA did make discretionary releases during the reporting period. GSA's offices operate under the presumption of openness, with an approach predisposed toward disclosure in the review and release of documents.

11. What exemption(s) would have covered the material released as a matter of discretion? For a discussion of the exemptions that allow for discretionary releases, please see OIP's guidance on [implementing the President's and Attorney General's 2009 FOIA Memoranda](#).

The material released would have been covered by the fifth statutory exemptions under FOIA, 5 U.S.C. § 552(b)(5).

12. Provide a narrative description, as well as some specific examples, of the types of information that your agency released as a matter of discretion during the reporting year.

The type of information released as a matter of discretion included records that contained information regarding the agency's deliberative process. The releases are made after conducting an analysis for foreseeable harm, per the guidance provided by the DOJ - Office of Information Policy and the memoranda issued by the President and the Attorney General. Example of these types of releases during this reporting period include memorandum of internal agency policies and procedures, including accompanying emails regarding the functioning of GSA programs. Programs highlighted in these discretionary releases include internal process and procedure information releases on GSA's Fleet Management, Federal Building Leasing, general acquisition, and Property Disposal programs.

13. If your agency was not able to make any discretionary releases of information, please explain why. For example, you should note here if your agency did not have an opportunity to make discretionary disclosures because you provided full releases in response to all requests or the only exemptions that were applied were those that do not lend themselves to discretionary release (i.e. Exemptions 1, 3, 4, 6, 7A, 7B, 7C, 7F).

Not Applicable.

Other Initiatives:

14. Describe any efforts your agency has undertaken to inform non-FOIA professionals of their obligations under the FOIA.

GSA has under-taken several communication and outreach methods to inform non-FOIA professionals of their obligations under the FOIA. GSA employees are continually made aware that FOIA is every employee's responsibility. GSA FOIA professionals engage GSA's non-FOIA professionals through a variety of outreach meetings and training sessions, as well as presenting at assigned Directors and GSA Office and Division staff meetings. During these times, FOIA professionals are able to reiterate the importance of FOIA responsibilities as well as provide necessary training and updates. Additionally, the GSA Chief FOIA Officer sends out memorandums with updates and key information regarding FOIA processes and responsibilities in a continued effort to ensure accountability of the FOIA program at GSA.

Also, during this reporting period, the GSA FOIA professionals revised and reissued the agency-wide GSA FOIA Handbook and Desk guide, as well as developed and issued an internal FOIA Service Level Expectation (SLE) document which covers the agreed responsibilities and required actions and services provided by agency FOIA SMEs and the GSA FOIA Requester Service Center to successfully administer the FOIA regulations and provide GSA FOIA requesters excellent customer service and timely responses to FOIA requests.

15. If there are any other initiatives undertaken by your agency to ensure that the presumption of openness is being applied, please describe them here.

The GSA FOIA Requester Service Center has continued to partner with the GSA Open Government Team to identify information and government-wide data sets that can be proactively shared on the internet prior to a FOIA request. Some examples of GSA proactive postings of data sets at GSA include:

- GSA Acquisition Hallways - hallways.cap.gsa.gov/
- SAM.gov – System for Award Management data
- FBO.gov – Federal Business Opportunities
- FMI.gov – Facilities Management Institute
- Publications.USA.gov
- Electronic Waste Disposal (eWaste)
- Federal Awardee Performance and Integrity Information System (FAPIIS)
- GSA Lease Inventory - <http://www.gsa.gov/portal/content/101840>

Section II: Steps Taken to Ensure that Your Agency Has an Effective System in Place for Responding to Requests

The Attorney General's **2009 FOIA Guidelines** emphasized that "[a]pplication of the proper disclosure standard is only one part of ensuring transparency. Open government requires not just a presumption of disclosure, but also an effective system for responding to FOIA requests." It is essential that agencies effectively manage their FOIA program.

Please answer the following questions to describe the steps your agency has taken to ensure that the management of your FOIA program is effective and efficient. You should also include any additional information that describes your agency's efforts in this area.

Processing Procedures:

1. For Fiscal Year 2015, what was the average number of days your agency reported for adjudicating requests for expedited processing? Please see Section VIII.A. of your agency's Fiscal Year 2015 Annual FOIA Report.

GSA reported and average of 1.32 days for adjudicating requests for expedited processing.

- Please note here if your agency did not adjudicate any requests for expedited processing during Fiscal Year 2015.
